

MERIT SYSTEM. PLAN OF REORGANIZATION FOR SCHOOL TEACHERS

Will Introduce Resolutions in
Council Monday to Readjust
Salaries in General Scheme
of Reorganization

WILL WORK TEACHERS 11
MONTHS, INCREASING PAY

Three Months' Vacation Plan
Will Be Reduced to One With
All Employees Subject to
Work During Summer

Resolutions to readjust the pay of
teachers in the public school system,
and requiring them to be subject to the
orders of the department of education
for eleven instead of nine months of
the year will be introduced in the city
council Monday afternoon and in the
board of education on Tuesday morning.

The readjustment of salaries is one of
the important parts of the general
scheme of the board of education for
the complete reorganization and im-
provement of the school system.

Underman John S. Owen will intro-
duce the resolution in the council and
several members of the board of edu-
cation will sign it before it is placed
before that body.

While the salary readjustments will
result in a saving to the city, figured on
the basis of this year's payroll, and there
will be a number of teachers who will
also be a number of increase, and the
maximum of pay for grade school
teachers is fixed at a slightly
higher figure than the one that prevails
at present.

While only about one-twentieth of the
teachers in the schools will be needed
for the vacation schools, which are now
being established, the new system will
practically eliminate all cost of the
vacation schools.

The regular school buildings will be
used for the vacation schools, and the
teachers, when their pay is divided into
twelve monthly installments instead of
ten, can be assigned to the vacation
schools in the summer without cost to
the city.

All of the teachers will be allowed
one month's vacation each year and
most of them will not be assigned to
work during the vacation. The two sum-
mers, although they will be subject
to the orders of the board to teach at
vacation schools or to attend normal
schools when they are considered desir-
able in some branch of the system.

Under the proposed new scale of pay
the minimum of \$2,300 for the lowest
grade and principals of fourteen grades
schools and above \$3,000 per annum.
The minimum for principals, by increas-
ing the salary of the lowest grade school
teacher from \$1,800 to \$2,300, and the
maximum \$3,000, will be \$1,800, which
will be \$1,800, which shows a saving
to the city of \$2,300 on the salary of
principals.

The amount which will be saved on
the salaries of the teachers will be
determined by the number of teachers
who are placed in the higher grade
groups, but it is certain there will be
a saving of \$2,300.

The lowest salary paid grade teacher
is now \$1,800, under the proposed
system, \$2,300, and the maximum of
\$3,000 per year can be reached.

The resolution, which will be intro-
duced in council Monday afternoon by
Underman Owen, says in part: "The
classification of the grade schools and
division into six groups shall be done
jointly by the board of education and
the city clerk."

King Constantine of Greece Is Believed To Be Near Death

Ruler's Temperature Has
Passed 103 and He Spent
Restless Night, Says Bulletin
From Bedside in Athens

(By Associated Press.)
ATHENS (via London), June 7.—A
bulletin issued at midnight regarding
the condition of King Constantine said
his temperature was 103.2, his pulse
125 and his respiration 26. His sleep
broken frequently during the night.

London Hears King's
Condition Is Serious

(By Associated Press.)
LONDON.—A dispatch re-
ceived here this afternoon from Athens
by way of Berlin declares the condi-
tion of King Constantine of Greece to be
very serious.

Floyd Farmer Will
Make \$125 an Acre
On Crop of Alfalfa

(Special Dispatch to The Journal.)
ROME, Ga., June 7.—S. W. Whitley,
who farms about ten miles from Rome,
will this year make \$125 an acre on land
planted to alfalfa, with four cuttings
of the crop. Two have already been
harvested. Mr. Whitley has planted
part of his farm to oats and indica-
tions are that he will be making more
than \$100 an acre on the alfalfa.

The only part of no-cotton lies among
farmers of this section has taken a
firm hold.

Roman Amphitheatre
At Pola, Will Not Be
Harmed By Italians

(By Associated Press.)
VENICE, June 6.—(Via Paris, June
7).—The Italian military authorities
have issued instructions to ships and
aircraft to spare from injury the re-
mains of the famous Roman amphitheatre
at Pola, the Austrian naval base on the
eastern side of the Adriatic.

The Italians claim this location is be-
lieved by the Austrians for military
purposes; nevertheless they purpose to
use it.

NEW BRITISH CABINET
CHEERED BY COMMONS

Asquith, Law and Others Ap-
plauded as They Talk
About the War

LONDON, June 7.—All the new min-
isters of the coalition cabinet appeared
on the front bench in the house of com-
mons this afternoon.

Mr. Asquith, the new secretary of the
colonies, A. Bonar Law, and others
were cheered by the house when they
rose to answer questions.

Premier Asquith announced that the
response to Field Marshal Earl Kitchener's
appeal for 200,000 recruits had been
satisfactory. A full announcement
of the government's policy regarding
recruiting would be made later, the
prime minister said.

During the last century there never
has been a shadow of discord between
the two nations. We regard her as one
of the best friends of the free traditions
of Europe. We warmly grasp the hand
of Italy and welcome her gallant sailors
and soldiers at the front.

Frederick G. Kellaway, a liberal
member, asked "whether the government
has the power of stopping the mischiev-
ous campaign of a group of newspapers
which endeavored to prevent men from
joining the army by refusing to publish
Lord Kitchener's appeal for more men,
and whether the government was aware
that these attacks came from the same
source as the recent attacks on Lord
Kitchener."

The famous injunction case brought
by Forrest Adair and other Atlanta
Shriners against the officers and mem-
bers of a negro order known as Shriners
was argued before the supreme court
Monday.

GERMANS BELIEVED PROVE GERMANY CHARGES

Unsupported Accusations in
White Book Are Vigorously
Assailed by Belgian Legation
at Washington

WILLING FOR UNIVERSE
TO ACT AS THE JUDGE

Evidence Shows Charges
Against Civil Population and
the Government of Belgium
Are Based

(By Associated Press.)
WASHINGTON, June 7.—The Belgian
legation today gave out the following
statement concerning the German white
book recently issued at Berlin making
accusations against the Belgian civilian
population:

"The American newspapers have pub-
lished extracts from a German white
book, in which the German government
accuses the Belgian civilian population
of having been an accomplice and taken
part in the invasion, and of having
organized corps of 'franc-tireurs';
this document, that the Belgian govern-
ment gave free rein to the passions of
the population and alleges that Bel-
gium's accusations against the German
army were invented to hide her own
guilt."

"No proof is brought forward to sup-
port these accusations."
"Affirmations without proof cannot
effect facts fully proven and established."
"At the beginning of the war the Bel-
gian government issued the following
proclamations, the text of which was
reproduced among the documents pub-
lished by the Belgian commission of in-
quiry."

"A circular of Mr. Berrier, min-
ister of the interior, addressed, under
the date of August 1, 1914, simultaneously
to 2,700 communes of Belgium, by tele-
graph, reminding the population that
acts of hostility against the invading
armies were reserved exclusively to the
civil guard, and corps of volunteers
regularly organized. Portions of these
circulars are borrowed textually from
the Hague convention, such, for ex-
ample, as the portion concerning the
population of a territory spontaneously
rising up against the approach of in-
vaders, which faithfully reproduces ar-
ticle 5 of the regulations annexed to the
Hague convention."

"In notice from the same minister
dated daily in the newspapers and
publicly posted in the larger towns, it
is not in all of the communes of the
country that the population is invited
to take up arms. It is only in the com-
munes which are invaded, or which are
threatened by the approach of the in-
vaders, which are invited to take up arms.
This notice is addressed to the civil
population, and is characterized as both
criminal and 'impudent' any act of violence
committed by a single civilian."

"In the majority of communes, the in-
vitation is addressed to the civil popu-
lation, and is characterized as both
criminal and 'impudent' any act of violence
committed by a single civilian."

"The note is said to be a vicious sat-
iric warning in the form of notices or com-
munications fully posted on the walls
of the communes, and other public places.

Barbecues, Dances, Fun and Frolic for Hotel Men From Every Part of Country During Three-Day Stay in Atlanta

East and west shook hands, north and
south slapped each other on the back
before the arrivals pointed to one of
every part of the United States flocked
into the Piedmont hotel Monday morn-
ing for the fifth annual convention of
the Greeters of America.

Above the clerk's desk a monster sign
informed the world that "The Arkansan
Boys Have Come." At the secretary's
desk in the Piedmont palm room hun-
dreds were busy in registering. Gen-
erals, fluted, arm-bands, gleamed,
and the guests of the Greeters of America
were busy in registering. Generals, fluted,
arm-bands, gleamed, and the guests of
the Greeters of America were busy in
registering. Generals, fluted, arm-bands,
gleamed, and the guests of the Greeters
of America were busy in registering.

At 10 o'clock the convention was called
to order in the convention hall by A.
M. Chapman, president of the Atlanta
club of Southeastern Greeters. Rev. A.
M. Hight, presiding elder of the Meth-
odist church, delivered the invocation.
Addresses of welcome were made by
the mayor, President Chapman and
W. C. Roper, president of the Atlanta
club of Southeastern Greeters. George
A. Dixon, of San Francisco, president
of the national association, responded.

"The best Greeter we have," declared
President Chapman, "is the one who
introduces a stranger to the city. We
want you to have a good time," he
said, "and we are going to do every-
thing we can to make you have it."
Atlanta has more hotels for a city its
size than any in the world, and the
Greeters of America are going to make
it so. We want you to have a good time,
and we are going to do everything we
can to make you have it.

PROBERS SAY BEAVERS SHOULD OBEY THE BOARD

Committee's Report Charges
Outside Influences Have
Dictated Chief's Action

The committee of the police board,
which has been probing the police de-
partment several weeks, has finished its
report and will submit it to the board
Tuesday night.

Among the conclusions known to be
set forth in the report are the follow-
ing: "That numerous acts of Chief Beav-
ers have been dictated by outside in-
fluences, and that the chief in future
should put aside all outside influences
and make himself subordinate to the
board, consulting with the board in
advance of taking any important action
of the department."

That vice, instead of being abolished,
has been scattered promiscuously over
the city.

That the discipline of the force is lax
and should be tightened up by the chief.
That the chief should devote more
personal attention to the men on duty,
instead of trusting to the police cap-
tains and sergeants.

The note is said to be a vicious sat-
iric warning in the form of notices or com-
munications fully posted on the walls
of the communes, and other public places.

GERMANS PUSHING REINFORCEMENTS TO THE WESTERN FRONT

Two British Steamers, One
Russian and One French
Mine Layer Sunk—British
Coast Is Raided Again

Italians Making Great Drive
Into Austria Over a Forty-
Mile Front—Turks Claim
New Victory

(By Associated Press.)
WASHINGTON, June 7.—Messages
from Vienna says that Lemberg, capital
of the Austro-Hungarian empire, is
now in the hands of the Russians, and
may be taken at any moment by the Aus-
tro-German forces, according to a dis-
patch from Copenhagen. The London Ex-
change Telegraph company, however, an-
nounces that the Russian forces are
one message from the town and other
advice estimate the distance at only
ten miles.

According to London, the Germans are
making a large-scale attack on the
east to the west front.

The Germans claim capture of more
than 100 prisoners and a wounded of-
ficer. It is said the attack was
made on the east coast.

The British aviator destroyed a Zeppelin
over Berlin.

A dispatch from Berlin, which
escaped the British censorship, says
in an official announcement the
location of the places attacked in the
Zeppelin raid of last Friday night. It
stated the location of the attack was
Humber and the naval port of Harwich,
both on the east coast of England, were
attacked by the Zeppelin. The Zeppelin
dropped, causing considerable damage.

According to an official announcement
from Berlin, a Russian mine layer was
sunk in the Baltic by a German
submarine. This probably is the vessel
referred to in a semi-official dispatch
from Petrograd, which, however, stated
that the Zeppelin, a sister ship of the
Amur.

Heavy fighting again is in progress at
various points along the Western front.
The French war office announced today
the capture of two lines of German
trenches near the town of Arras, and
near Hebuterne, and the repulse of Ger-
man attacks on the British front. The
German statement declared the French
attack at Hebuterne was unsuccessful,
with the exception of one point at which
they penetrated to the German lines.

A Turkish counter attack is said to
have been successful.

Although no official accounts have
been received of the recent fighting in
the Baltic region, it is known that
German warships, a Petrograd dispatch
indicates that it resulted from a Ger-
man attack on the Russian coast of the
Gulf of Riga. It is reported several
German submarines and one large vessel
were sunk and that the Russians lost
an auxiliary. Apparently the Russian
German battle squadrons were not
engaged.

ANNAPOLIS SCANDAL
HALTS ANNUAL CRUISE

ANNAPOLIS, Md., June 7.—A naval
court of inquiry appointed by Secretary
Dahlgren today to investigate charges
of irregularities in the conduct of the
anniversary of the academy, has
announced that it will be wide in its scope
and will delve into the whole history of
the academy. Already three midship-
men have been dismissed and the recom-
mendations of the academy officers are
called for dismissal of seven others.

GEORGIA SPHINX TO HOLD BIG REUNION AT ATHENS

Meeting of Honorary Society
Members to Be Feature
of Commencement

(Special Dispatch to The Journal.)
ATHENS, Ga., June 7.—One of the notable occasions of the approaching University of Georgia commencement which begins Friday night, June 11, will be the reunion of the Sphinx members, the Georgia honorary club.

This is a club that was organized at Georgia years ago and numbers among its membership the most prominent students turned out at the University of Georgia. Athens, leaders in the list and many prominent men over Georgia return to Athens every June to attend the annual banquet, which is one of the social functions during commencement week.

The local alumni, the student members and faculty members have invited the entire list of members back for a great reunion this year and Tuesday, the regular alumni day, which is the 13th, is the day that has been set for the occasion. A smoker will be tendered the visitors, plans for the future of the organization will be discussed, with open house will be kept in the headquarters, rooms that have been opened by the local alumni committee.

Colonel Jerome C. Monahan, S. Hodgson and Charles E. Martin have been named as a committee from the student alumni to work with the active members in planning for the reunion, and no occasion of the commencement festivities will be attended by greater enthusiasm.

Members of the Sphinx from Macon, Atlanta, Savannah, Columbus and other places over the state have signified their intention to come to the reunion, while many will be here for class reunions and to attend the general commencement exercises.

An order has been sent out from the head of the mystic organization, commanding every member to be here on the day named.

**T. R. WILL TAKE "REST"
BY HUNTING FOR BEARS**
Colonel and Wife Pass Through
on Way to Visit Friends
in Mississippi

Colonel Theodore Roosevelt and Mrs. Roosevelt passed through Atlanta Sunday afternoon on their way to Pass Christian, Miss., for a visit with John D. Parker, national Progressive committee man.

The colonel is going to Mississippi to rest from his recent activity in the harness suit and to recuperate from a fractured rib sustained when he fell in attempting to mount his horse at Oyster Bay. According to Atlanta friends of the colonel he will "rest" in Louisiana by going on a bear hunt.

Colonel Roosevelt spent twenty minutes in Atlanta. He arrived on a special Pullman at 5 o'clock. He had not been here for some time and no delegation was at the train to meet him. The first time he had been in Atlanta since passing through here last fall, was spent in looking out the last windows of his Pullman at the sooty fastnesses beneath the Terminal shed.

Norman I. Miller, secretary of the local Progressive organization, stated Tuesday that he intends to keep in touch with Colonel Roosevelt while he is in Mississippi and endeavor to get him to make a longer stay in Atlanta on his return trip and possibly deliver an address.

**Colonel and Mrs. Roosevelt
Arrive at Pass Christian**
PASS CHRISTIAN, Miss., June 7.—Colonel Theodore Roosevelt and Mrs. Roosevelt arrived here today for a brief visit with John D. Parker. Tomorrow the colonel and a party of men will board the Louisiana Navy and Army commission's yacht "Daisy" for a trip upon the water and state game preserve on the lower coast which comprises about 20,000 acres. It is said that it was at Colonel Roosevelt's suggestion that the first federal preserve was established in Louisiana, but he never has seen it.

**PHILADELPHIA TO HAVE
A REAL NAVY YARD**
WASHINGTON, June 7.—"Captain John J. Knapp, of the naval examining and retiring board, formerly commander of the battleship Connecticut, today designated by Secretary Daniels as commander of the Philadelphia navy yard to succeed Rear Admiral William S. Benson, now serving as chief of operations.

"We propose making the Philadelphia navy yard one of the most important," said Secretary Daniels in announcing the appointment. "We already are building a supply ship there and we expect in a few years to be able to build a dreadnaught there."

Schooner in Trouble
NORFOLK, Va., June 7.—The captain of the Italian steamer Doris reported this morning that he had passed an American schooner displaying signal letters K. S. P. D. at 10 a. m. June 5. The vessel was drifting with her stern gear out of order and asked to be towed to the custom house, but did not request assistance. The maritime collector showed the signals to be those of the schooner Emma S. Lord, of Bangor, Maine.

MME. SCHUMANN-HEINK TELLS BRIDES TO BE OLD-FASHIONED WIVES

Despite War Orders, However,
Exports of Manufacturers
Are Off

(By Associated Press.)
WASHINGTON, June 7.—"Despite the so-called war orders," says an official analysis of foreign trade issued today by the department of commerce, "the exports of manufacturers of all kinds other than foodstuffs have been less than in the similar period before the war."

The statement refers to the foreign trade for the ten months ended in April which shows a trade balance of almost a billion dollars.

"The normal sales of manufacturers during peace," says the statement, "were greater than those under existing war conditions. Because of this fact and the extraordinary shrinkage of exports of crude materials, it is found that the net increase in our total exports has been wholly in foodstuffs."

One of the outstanding features of the analysis is that more than \$45,000,000 worth of American horses and almost \$10,000,000 worth of mules have been fed to the battlefields. Three million dollars' worth were sent to Europe in April alone.

In Europe alone, of the world's grain dividers, has American foreign trade increased. European nations took \$287,000,000 more of American goods during the ten months than during the same period the previous year. North American nations took \$15,000,000 less. South American nations, \$32,000,000 less. Asiatic nations, \$5,500,000 less. African countries, \$800,000 less, and Oceania countries, \$3,200,000 less.

Great Britain took \$24,500,000 more during the period than in the previous year's period; France \$132,000,000 more; Italy, \$9,000,000 more; Sweden, \$55,700,000 more; Netherlands, \$25,400,000 more; and Norway \$25,000,000 more.

Exports to Germany showed a \$29,000,000 decrease, Austria-Hungary \$18,000,000 decrease, and Belgium a \$24,200,000 decrease.

**RAILWAY ASSOCIATION'S
COMMITTEES MEET**
Two of the monthly meetings of committees of the American Railway Association will be held at the Piedmont hotel Monday and Tuesday.

The committee on marking and handling freight Tuesday.

Arthur Hale, general agent for the American Railway association, who is lecturing in New York and Chicago, is chairman of both of these committees. John E. Fairbanks, of New York, is secretary of the committee on marking and handling freight Tuesday.

**JOHN MORRIS JUSTIFIED
IN KILLING, SAYS JURY**
(Special Dispatch to The Journal.)
DANIELSVILLE, Ga., June 7.—John Morris, residing about eight miles from this place, shot and killed One Phillips last night. The coroner's jury returned a verdict of justifiable homicide.

**FACE COVERED
WITH PIMPLES
ALL-HER LIFE**
But Miss Ayres Got a "Beautiful Complexion" at a Cost of Only \$2.00.

Nov. 21, 1914—"All my life my face was covered completely with a mass of pimples, blackheads and blotches. I spent a lot of money on numerous remedies and treatments without success and no relief at all. I tried so many things that I was afraid my case could not be cured. Resinol Ointment and Resinol Soap seemed to do me good. Right from the first, I used two jars of Resinol Ointment and some Resinol Soap, the total cost being only \$2.00, and this completely cured my case. My skin is without a blemish and I am the possessor of a beautiful complexion." (Signed) Mabel Ayres, Stone Mountain, Va. Every drugist sells Resinol Soap and Resinol Ointment.—(Advt.)

Mr. W. M. Bennett Dies
(Special Dispatch to The Journal.)
LAVONIA, Ga., June 7.—Mrs. W. M. Bennett, near this place, died suddenly, by Sunday night about 10 o'clock. She was apparently in the best of health about ten minutes before her death. She leaves a husband and three children.

**STATEWIDE PRIMARIES
LEADER IN INDIANA DEAD**
BLOTTINGTON, Ind., June 7.—State Senator Elias M. Riser, who led the movement for statewide primaries in the 1915 legislature, died at his home here late last night. He suffered a nervous break down during the last week of the legislature and never recovered.

Are Off

(By Associated Press.)
WASHINGTON, June 7.—"Despite the so-called war orders," says an official analysis of foreign trade issued today by the department of commerce, "the exports of manufacturers of all kinds other than foodstuffs have been less than in the similar period before the war."

The statement refers to the foreign trade for the ten months ended in April which shows a trade balance of almost a billion dollars.

"The normal sales of manufacturers during peace," says the statement, "were greater than those under existing war conditions. Because of this fact and the extraordinary shrinkage of exports of crude materials, it is found that the net increase in our total exports has been wholly in foodstuffs."

One of the outstanding features of the analysis is that more than \$45,000,000 worth of American horses and almost \$10,000,000 worth of mules have been fed to the battlefields. Three million dollars' worth were sent to Europe in April alone.

In Europe alone, of the world's grain dividers, has American foreign trade increased. European nations took \$287,000,000 more of American goods during the ten months than during the same period the previous year. North American nations took \$15,000,000 less. South American nations, \$32,000,000 less. Asiatic nations, \$5,500,000 less. African countries, \$800,000 less, and Oceania countries, \$3,200,000 less.

Great Britain took \$24,500,000 more during the period than in the previous year's period; France \$132,000,000 more; Italy, \$9,000,000 more; Sweden, \$55,700,000 more; Netherlands, \$25,400,000 more; and Norway \$25,000,000 more.

Exports to Germany showed a \$29,000,000 decrease, Austria-Hungary \$18,000,000 decrease, and Belgium a \$24,200,000 decrease.

**RAILWAY ASSOCIATION'S
COMMITTEES MEET**
Two of the monthly meetings of committees of the American Railway Association will be held at the Piedmont hotel Monday and Tuesday.

The committee on marking and handling freight Tuesday.

Arthur Hale, general agent for the American Railway association, who is lecturing in New York and Chicago, is chairman of both of these committees. John E. Fairbanks, of New York, is secretary of the committee on marking and handling freight Tuesday.

**JOHN MORRIS JUSTIFIED
IN KILLING, SAYS JURY**
(Special Dispatch to The Journal.)
DANIELSVILLE, Ga., June 7.—John Morris, residing about eight miles from this place, shot and killed One Phillips last night. The coroner's jury returned a verdict of justifiable homicide.

**FACE COVERED
WITH PIMPLES
ALL-HER LIFE**
But Miss Ayres Got a "Beautiful Complexion" at a Cost of Only \$2.00.

Nov. 21, 1914—"All my life my face was covered completely with a mass of pimples, blackheads and blotches. I spent a lot of money on numerous remedies and treatments without success and no relief at all. I tried so many things that I was afraid my case could not be cured. Resinol Ointment and Resinol Soap seemed to do me good. Right from the first, I used two jars of Resinol Ointment and some Resinol Soap, the total cost being only \$2.00, and this completely cured my case. My skin is without a blemish and I am the possessor of a beautiful complexion." (Signed) Mabel Ayres, Stone Mountain, Va. Every drugist sells Resinol Soap and Resinol Ointment.—(Advt.)

Mr. W. M. Bennett Dies
(Special Dispatch to The Journal.)
LAVONIA, Ga., June 7.—Mrs. W. M. Bennett, near this place, died suddenly, by Sunday night about 10 o'clock. She was apparently in the best of health about ten minutes before her death. She leaves a husband and three children.

**STATEWIDE PRIMARIES
LEADER IN INDIANA DEAD**
BLOTTINGTON, Ind., June 7.—State Senator Elias M. Riser, who led the movement for statewide primaries in the 1915 legislature, died at his home here late last night. He suffered a nervous break down during the last week of the legislature and never recovered.

INTERESTING MEETING OF COUNCIL DURING THE DAY

Seawright Ordinance and the
Charter Amendments to
Come Up at Session

The council meeting Monday afternoon promises to be of unusual interest. The June budget as prepared by the finance committee will be introduced, and a strenuous effort to pass it with few, if any important amendments, will be made.

An effort will be made to pass the Seawright ordinance to bar from the board of education citizens who have ever been connected with a school book publishing company.

The charter revision committee, of which Councilman James M. Wood is chairman, will report favorably on three proposed amendments to the charter: to make the tax receivers and clerks of the tax office elective by council instead of by the three tax assessors; and to secure authority to establish a municipal farm for the treatment of people addicted to the drink and drug habits and to place them there for terms of one year or less.

The tax committee will report its revision of the tax ordinance increasing the cost of city licenses for many classes of business and a vigorous opposition to it is bristlingly certain.

**MOORISH REBELS LOSING
TO TROOPS OF MOROCCO**
Government Force Is Meeting
With Success, According
to Reports

(By Associated Press.)
MADRID (via Paris), June 7.—Reports received from Morocco state an expeditionary force has taken two positions occupied by Moorish rebels near Moulaya, in the Spanish zone, and continues to push ahead.

The government has appealed to the Spanish press to abandon all discussions of the Moors' rights to the zone, and to stand by the maintenance of neutrality. The governors of provinces have been instructed to forbid all public meetings called to discuss international questions.

ATLANTA GRAYS PLAN BIG REORGANIZATION DINNER

Home-Coming Jubilee Will Be Held at Ansley Hotel June 10

In celebration of the twentieth anniversary of their reorganization as Company K of the Fifth Georgia regiment, the Atlanta Grays will hold a home-coming dinner at the Ansley hotel the evening of June 10.

Some of the military adventures of Charles M. Pendleton, formerly first sergeant of the Grays, later first lieutenant in service in the Philippines with the 25th United States volunteers and afterwards a captain in the Philippine constabulary, will furnish the principal topics of the occasion. Mr. Pendleton will speak on "All's Present That's Accounted For."

The Grays organized first as artillery in 1859 by Captain Alex. W. Wallace, went to the Civil war as Company E, 25th United States volunteers, under the command of Captain Thomas L. Cooper. Captain Wallace having resigned to go to the Confederate regulars. The company's record throughout the war was brilliant, during that only six original members survived to be surrendered at Appomattox. When the company was killed at Atlanta. Out of Civil War veterans, Robert Lewis, Tom Hulsey, Sam Love, Thomas Lewis and O. P. Sisson, the only survivor is Captain Robert Lewis, who is expected to speak at the dinner on "The Grays in the Civil War."

Colonel W. I. Hayward, who commanded the company after the war in the early eighties, will be present at this time the company formed the nucleus for the Atlanta Grays reorganization. In which Colonel John S. Candler was elected a captain, Robert Lewis, Tom Hulsey, lieutenant.

With William C. Massey as captain, S. H. Askew first lieutenant, James P. Maury as second lieutenant, Charles M. Pendleton first sergeant, King Fairman second sergeant and Charles M. Stokes, the present captain, fifth sergeant, the Atlanta Grays were reorganized in 1905 as Company K of the Fifth Georgia regiment. Since that time the company has been successfully captained by Hugh M. Dorsey, S. H. Howell, E. E. Pomeroy, William M. Smith, Claude C. Smith and Charles A. Stokes.

Among the guests at the dinner will be General W. G. O'Neil and Captain W. J. Kendrick, Seventh United States cavalry, formerly major in the Fifth Georgia. William C. Massey will be toastmaster and Major Claude C. Smith is chairman of the entertainment.

All members of the Grays who have not received cards of notification for the dinner are requested to communicate with Captain Stokes, as, unfortunately, many of the rolls have been destroyed.

The following program has been arranged, and will be interspersed with musical music led by former trumpeter William Whitney Hubner:

Invocation—Rev. Fritz Rauschenberg.
"The Grays in the Civil War"—Captain Robert Lewis, Mr. George Hammond.
"The Grays During Reconstruction, and the Nucleus of the Fifth Regiment"—Lieutenant Colonel W. I. Hayward.
"Colonel of Two Regiments at Once"—Colonel John S. Candler.
"The Birth of Company K"—Captain William J. Kendrick, U. S. A., late major Fifth Georgia.
"The Christening of Company K by the State of Georgia"—General William G. O'Neil.
"All's Present That's Accounted For"—Charles M. Pendleton, late lieutenant.

GULLIE BENJAMIN GOLDEN, Atlanta boy, who has graduated from Columbia university after winning many honors.

PRIZES TO BE OFFERED BEST CORN GROWERS

To encourage corn production in Georgia, State Treasurer W. J. Speer announces he will give prizes of \$100 in gold at the end of the harvest season next fall. It is thought that one prize of \$100 will be given to the grower showing the largest yield of corn on a single acre, and that a second prize of \$25 will go to the farmer showing the next largest yield. The prizes will be given by the state treasurer through the state department of agriculture. He has not yet arranged the rules of the contest.

MR. O. J. MASSEE DIES
MARSHALLVILLE, Ga., June 7.—Mr. O. J. Massee died this morning about 1 o'clock. His body will be taken to Macon for interment.

U. S. V., captain Philippine Constabulary and first sergeant of Company K, "The Citizen Soldier"—Hon. Lucien Lamar Knight.
"The Atlanta Grays as I Knew Them"—Captain William C. Massey, Hugh M. Dorsey, S. H. Howell, E. E. Pomeroy, William M. Smith, Claude C. Smith, Charles A. Stokes.
"Till We Meet Again"—The Toastmaster.
Benediction—Rev. Fritz Rauschenberg, a private who rose to the minister.

ELECTION OF TEACHERS IS DEFERRED BY BOARD

Principals to Be Consulted by Committee Before Nominations Are Made

The election of public school teachers for the ensuing year will not be held by the board of education Tuesday afternoon, as scheduled, but will be postponed until the principals of the schools have been consulted.

The teachers' committee of the board will begin consulting with the principals Monday afternoon. As there are something over forty-five principals, it will take several days to hear them all.

As soon as the committee has finished with the principals and made up a report, the board will be called to hear from the committee.

L. M. Landrum, ad interim superintendent, will sit with the teachers' committee in the consultations with the principals, and his recommendations to the committee will be given full consideration.

The policy of the teachers' committee and of the board will be to give the principals practically a controlling voice where teachers now in the system are concerned. For instance, where a principal recommends that his teachers be re-elected and continued in the grades they taught last year, the board's policy will be to follow his recommendation.

TWO DOCTORS CHARGED WITH GIVING NARCOTICS

Cases Charging Violation of Harrison Anti-Narcotic Law Before U. S. Court

Cases are now pending against two Atlanta doctors on charges of a violation of the Harrison anti-narcotic law, and these cases promise to be followed by several others which are now being investigated.

Dr. Virgil C. Cooke, one of the doctors, was recently giving a hearing before United States Commissioner Colquhoun Carter, but Judge Carter's decision was held up pending a hearing of similar charges against Dr. W. A. Starnes, proprietor of a sanatorium.

Three women testified that they were addicted to the drug habit and were being treated by Dr. Cooke. Their names were not disclosed.

The law allows physicians duly registered to prescribe drugs to those addicted to the habit, and although it specifies that the prescriptions shall not be excessive, it does not say just what amount of drugs should be given. Those in charge of the direction of the case admit the difficulty of putting an exact interpretation on the law.

Dr. Cooke admitted that he had prescribed for women patients, but he said he did so thinking he was complying with the law and in the line of his practice. Dr. Starnes is ill, but is expected to appear within a few days.

Dr. C. J. Bible, another physician, was recently bound over on a charge of a violation of the law.

Mrs. Zona Justus Dead
CLAYTON, June 7.—Mrs. Zona Justus, wife of Jas. M. Justus, a prominent farmer, residing at this place died at 4 o'clock this morning at her home here after an illness of three or four days.

Mrs. Justus was about 50 years of age, and is survived by her husband and several children.

REV. MORRIS CELEBRATES HIS FIRST HIGH MASS

Atlanta Boy Was Ordained a Catholic Priest in New York on May 29

Rev. Joseph A. Morris, son of Mr. and Mrs. John Morris, celebrated his first solemn high mass at the Church of the Immaculate Conception Sunday morning at 10 o'clock. Father Morris was ordained a Catholic priest on May 25 by His Eminence Cardinal Farley, in St. Patrick's cathedral, New York City. He is a member of the Paulists, an order of the Catholic church chiefly devoted to mission work.

Following the custom of the priesthood, Father Morris returned to his native city to celebrate his first mass. After a visit of several days with his family, he will return to New York and be assigned to some charge of the Paulists.

The sermon Sunday morning was preached by Rev. Lewis J. O'Brien, D. D., C. E. P., of the Catholic university, Washington, D. C., an orator and preacher whose services are in demand throughout the United States. He journeyed to Atlanta for the special purpose of celebrating the sermon at the first mass of Father Morris.

Father O'Brien took as the subject of his sermon the sacrifice of the mass, the principal part of divine worship in the Catholic church, and explained its origin, meaning and necessity.

Father O'Brien showed that Christ had been the first to offer mass. He had offered together His disciples and communion with them.

Congratulations to the parents of Father Morris for contributing a son to the order of Paulists, and congratulations to his pastor, whose wise guidance nurtured his vocation, and the city of his birth for so worthy a son, were offered by Father O'Brien.

GULLIE BENJAMIN GOLDEN GRADUATE OF COLUMBIA
Atlanta Boy Has Made Remarkable Record While Attending University

Atlanta friends of Gullie Benjamin Golden, and his many, will be glad to hear that he received his degree last week from Columbia university and will arrive home Sunday at the residence of his parents, Mr. and Mrs. B. Golden, 238 South Pryor street.

Although Mr. Golden is only twenty-three years old, he has attained a remarkable record in scholarship. Graduating from the Boys' High school in 1909, he entered the University of Georgia, taking a degree there in 1912 and going to Columbia university with a scholarship which he retained each year thereafter. He was editor of the Law Review at Columbia and took three prizes in 1912 winning the honor for the best paper on constitutional law, in 1914 for the best paper on real property, and this year winning the Converse prize for the best law essay.

Mr. Golden's friends are proud of his success and wish him well in whatever he undertakes.

Paintings Bequeathed
DUBLIN, May 29.—(Correspondence of the Associated Press.)—It is announced that the bulk of the estate of Sir Hugh Lane, the wealthy Irish art expert who was lost on the Lusitania, is bequeathed to galleries in Dublin and London. The principal items in the estate are the collections of paintings.

DAN CAREY SECRETARY OF BUILDERS' EXCHANGE

Former Park Manager to Succeed J. D. Wood, Resigned, After June 15

Dan Carey, former general manager of the Atlanta park department, has been elected to the position of secretary of the Atlanta Builders' exchange and will assume his duties June 15.

Mr. Carey will succeed J. D. Wood, who recently resigned after holding the position eight years. He will go into business for himself. The directors in choosing his successor were unanimous for Mr. Carey.

The Atlanta Builders' exchange is an organization composed of contractors, builders and dealers in building materials and supplies. It has a membership of several hundred and is a co-operative, self-help organization which has grown steadily from the very first and now ranks as one of the strongest civic bodies in the city.

Mr. Carey's work will be largely of a public nature and he is necessarily well qualified in this respect, having been engaged in newspaper work several years, then secretary to the mayor of Atlanta three years, and manager of the park department six years.

MEN'S SUITS

\$1 Down, \$1 a Week

We Do As We Advertise

We have just received a big shipment of nobby summer suits for men, and young men in all the newest styles, colors and patterns to sell at \$12.50 and \$15.

These are just as good values as any cash store can give you and you can get one for \$1.00 first payment and \$1.00 a week.

We have other suits, of course, at \$15, \$20, \$22 and \$25 which are the cream of the best makers.

Boys' Norfolk suits at \$2.00 to \$7.00. The Mercer Co., 715 1/2 Whitehall St., (upstairs), next to J. M. High Co.

Economical Way to both Expositions

Save one half of standard berth fare by taking Tourist sleeper.

Save money on each meal by eating at Santa Fe-Fred Harvey dining rooms or lunch counters.

Save big money by taking advantage of our Daily Excursions

with liberal return limit and stop-overs. Only \$7.50 additional railroad fare for side ride to Grand Canyon of Arizona. That alone is worth entire expense of trip.

Four daily Transcontinental trains: one via New Orleans and Houston, route of the "California Special."

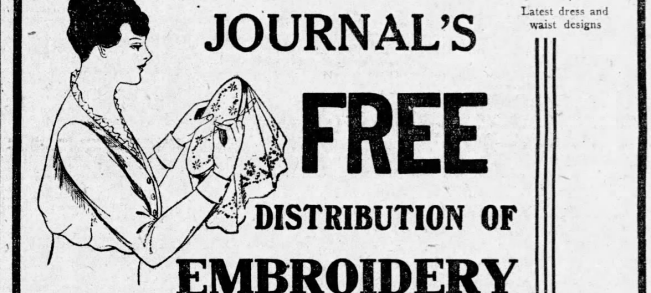

Ask for picture folders of the trip.

GERMANS RUSHING REINFORCEMENTS TO THE WESTERN FRONT

(Continued From Page One.)

These vessels may have been confused, apparently only one of them having been sunk.

The raid of German dirigibles over the east coast of England on the night of June 4-5 was announced on Saturday in a brief statement made officially at London, but no details of the place visited or damage were given.

Several German Transports Sunk in Baltic by Czar

(By Associated Press.)

LONDON, June 7.—The naval engagement at the entrance to the Gulf of Riga resulted in the sinking of several German transports and one large vessel not named, says the Petrograd correspondent of the Times. The Russians lost one auxiliary ship.

It is surmised, the correspondent says that a majority of the German ships hitherto concentrated at Kiel came out into the Baltic, but the battle squadrons apparently were not engaged. It is believed in Petrograd that the Germans will repeat their attempt to land troops on the Russian coast.

Turks Claim Defeat of Allies Before Seddul Bahr

(By Associated Press.)

CONSTANTINOPLE, June 6.—(Via London, June 7.)—The allied troops on the Gallipoli peninsula have been driven back with heavy losses, according to an official statement issued today by the Turkish war office.

"Subsequent fighting on the Seddul Bahr front has been successful for us," it says. "This was achieved by us by our right wing counter attack. The enemy was driven back in disorder to his old position after suffering heavy losses."

General Italian Advance Over a Forty-Mile Front

(By Associated Press.)

UDINE, Italy, (Via Calcutta and Paris), June 7.—A general Italian advance is proceeding today across the Isonzo river from Caporetto to the sea, a distance of about 40 miles. The movement is one of importance, and hard fighting is taking place at Gradisca.

The Italian authorities are drawing tighter the screen of secrecy as to the Italian operations. Nevertheless, it can be said that masses of Italian troops have been concentrated on the roads from Cormons, Palmanova and Cervignano.

The resistance of the Austrians daily is becoming stronger. This, Italian officers declare, has had the effect of making their men more determined.

Further, on the east side of the Isonzo, is one of the Italian objectives.

Serbs Busy Again; Little Army in Albania

(By Associated Press.)

ROME, June 6.—(Via Paris, June 7.)—Serbian forces are continuing their advance in Albania from two directions and now are only two days' march from Scutari, according to a dispatch from that city received by the Giornale d'Italia. They have occupied the towns of Starova, and Galabard, near Libhan, in central Albania, while the ragged remnants of the Albanian army are in their hands. The advancing forces have met with little opposition. Albanian and Musselman troops are said to have abandoned Scutari several days ago.

French Mine Layer Sinks

(By Associated Press.)

PARIS, June 7.—The ministry of marine today gave out the following: The French mine layer Casahuate, which has struck a mine at the entrance of a bay in the Aegean sea, and another officer and sixty-four sailors were picked up by a British torpedo boat destroyer. It is possible that other survivors were able to reach the coast, where they have been taken prisoners by the Turks.

German Bring Large Forces To the Western Front

(By Associated Press.)

LONDON, June 7.—Since the capture of Premysl the Germans apparently have brought heavy reinforcements into the west, and there are distinct signs of a resumption of the German offensive in northern France. Nevertheless, the French report a slow and uninterrupted advance in the sector north of Arras, and important gains north of the Aisne.

A French official announcement says French troops, after a very effective bombardment, east of Tracy-Le-Mont and north of the river Aisne, carried two successive lines of trenches on a front of one kilometer, together with several German works.

In the east the Austro-German advance is continuing. This move is regarded in London as political, the idea of the Germans and Austrians being to exert an influence upon Rumania.

Petrograd announces a Russian success along the river Pruth, near Kolomea, where the Austro-Germans are said to have been forced back. The Russian river Petrograd says also that the Russian line of defense must be readjusted on account of the use of gas by the Germans. The reason for this is that the troops, technically correct under the ordinary conditions of warfare, have been withdrawn when exposed to this new engine of hostilities.

The fighting along the central section of the river Isonzo, close to the Austro-Italian frontier, has developed a series of fierce engagements with the Italians finding increasingly stronger opposition, the Austrians being furiously entrenched.

This morning the British public was informed that the British forces had won a brilliant success at a point far from the main lines of battle on the continent. Sir Percy Cox, at the head of a strong naval and military force, has gained a foothold at Amara on the Tigris river, halfway from the head of the Persian gulf to the city of Baghdad.

During the past few days the Anglo-Indian army operating in that field has captured many prisoners as well as guns and ammunition, and have taken a gunboat, steamers and steam barges. It is said the Turkish army opposed to it is so demoralized that it is doubtful if it will be able to offer serious resistance to a further British advance in Mesopotamia.

The only naval activity of the week end was the engagement at the entrance of the Gulf of Riga, in the Baltic, which, according to Petrograd, resulted in the sinking of several German transports and another large unnamed vessel with the Russians losing one auxiliary ship. Details are meager, but it is inferred here that a majority of the German vessels concentrated at Kiel came out into the Baltic. It is quite clear, however, that no battle squadrons were engaged, as the fight was in no sense decisive.

7,000 Russians Captured When Germans Took Premysl

BERLIN, June 7.—(Via London.)—Special dispatches from army headquarters say the Teutonic allies took 7,000 prisoners, 31 cannon and 50 machine guns when they entered Premysl.

The Russian garrison had been given orders to hold Premysl to the last man, but they were overwhelmed by the terrific artillery fire.

Everything indicates that the Teutonic

TECH BOYS IN FREAK COSTUME started downtown Atlanta Monday afternoon with the procession which is part of the annual commencement exercises. They will also take part in the campus carnival Monday night. The picture shows the "faculty" slaughtered by a gun, the only "Krump" in Tech, operated by members of the "Acis" society.

allies are beginning the sixth week of their Galician campaign with a promising outlook. The Russians have lost their line on the San, and they appear also about to lose their positions on the Dnieper. These same advances indicate further that the Russians already have begun to retreat.

French Claim New Advance Against Germans in West

(By Associated Press.)

PARIS, June 7.—This afternoon's official statement follows:

"North of Arras last night there was an artillery engagement of extreme severity, particularly in the vicinity of Lorette, Albain, the 'Cabaret Rouge' near Souchez, 'The Labyrinth' and Ecurie. The enemy in this section delivered two counter attacks each of which failed completely. One was against the sugar refinery of Souchez, which was checked by artillery fire while the other was against part of 'The Labyrinth,' which was driven back by our infantry."

"On the other hand our forces made further progress. We gained two-thirds of a mile east of the Chapel of Lorette and in the central part of the work called 'The Labyrinth' we advanced about 10 yards."

"This morning at 5 o'clock we delivered an attack near Hebuterne against the positions in the neighborhood of the Tontout. Here we occupied along a front of 1,200 yards two successive lines of trenches; made some prisoners and captured some machine guns."

"North of the Aisne, not far from Moulin-Sous-Touvent, the enemy's counter attacks were continuing throughout the entire night. In this vicinity intense fighting we have retained our gains, at the same time capturing some of those two lines of trenches captured by us from the enemy during the day."

"The endeavor to bombard Vermeir, reported the day before yesterday has not since been repeated. There is nothing to report from the remainder of the front."

50,145 Prisoners Captured Recently, Berlin Claims

BERLIN, June 7.—(Via London.)—The war office issued the following statement today:

"Western theater. The French renewed their attacks on the southern slope of Lorette hills during the afternoon and evening of yesterday. Their attacks broke down completely under our fire. Further attempts to attack during the night were stopped at the outset."

"The enemy attacked unsuccessfully this morning southeast of Hebuterne, east of Doullens. The battle has not yet come to a conclusion. A French attack extending over the large front at Moulin-Sous-Touvent, northeast of Soissons, was for the greater part repulsed immediately. In only one place did the attack reach our outer trench for possession of which fighting continued."

"Our position at Vauquois was attacked yesterday. Notwithstanding the employment of an extraordinary impetus which covered our trenches with slightly burning liquid, the French did not

Five Killed in Raid on England; Zeppelin Destroyed

(By Associated Press.)

LONDON, June 7.—The admiralty announced this afternoon that a Zeppelin landed the east coast of England last night dropping incendiary and explosive bombs.

Five persons were killed and 40 were injured. Two fires were caused.

The admiralty also announced that a Zeppelin had been blown to pieces over Belgium by British airmen.

On To Los Angeles

TO THE GRAND LODGE MEETING B.P.O.E. July 11-17, 1915

Invitation is herewith extended to all Elks and their friends, by Atlanta Lodge No. 75, to join us in Atlanta on July 31, and be our guest on Special Train which will leave Atlanta 5:30 p. m. of that date, via Atlanta & West Point Railroad.

For Pullman reservations and information regarding this delightful trip, address—

J. P. BILLUPS, Chairman Transportation Committee, 40 East Ellis St., Atlanta, Ga.

Records—Atlantic City, N. J.

CALLEN HALL ATLANTIC CITY, N. J. HOTEL-SANATORIUM with comfortable and service with baths for pleasure seekers. ALWING ORF. CO. CAPACITY 2500 F. C. YOUNG, General Manager.

HOTEL STRAND ATLANTIC CITY, N. J. THE LATEST FINGERBOARD HOTEL. American plan. Always open. Capacity 600. On beach directly between the two great Ocean Piers. Water to all baths. Free. Illustrated literature. Ownership management.

MR. AND MRS. E. R. HAAS HAVE NARROW ESCAPE

Only Miracle Saves Couple When Electric Coupe Runs Off Bridge

Friends of Mr. and Mrs. Edwin R. Haas, 92 Waverly Way, were congratulating them Sunday on their miraculous escape from death Saturday night, when their electric coupe plunged over a 25-foot embankment at the western

end of the Edgewood avenue bridge, only to hang suspended, with the roof of the electric pressing down against the walls of the Atlantic Compress company's building.

If the car had been an open runabout without a coupe top, it would have plunged down the 25-foot drop as it was, it hung almost upside down, safely and tightly wedged. Mr. Haas broke the glass at the back of the car and both crawled out through this opening and across planks put down by neighbors who were attracted to the scene of the accident. A broken steering knuckle was the cause. Mrs. Haas suffered slight cuts from broken glass.

BARNESVILLE MEN OFF FOR FRISCO IN AUTO

BARNESVILLE, Ga., June 7.—Four foolish fellows driving to Frisco from Barnesville, Ga., in a Ford is the large white-lettered sign which is attached to the Ford in which Messrs. C. O. Summers, Roy Blount, E. L. Coleman and Hilary Pitts left this city this morning bound for the big exposition in California. They are on a prompt return here, and some days ago, somewhat in a joke, they entered into a contract with each other to make this trip. They started today.

I Am Going Across the Street Tomorrow!

The familiar L. C. Adler location at 116 Peachtree will be moved on Tuesday, June 8, directly across the street, to 113 Peachtree.

The new location involves no change in the ownership or policies of the L. C. Adler establishment.

We invite our friends and the general public to come, in on the opening day and see—

The Swellest Haberdashery Shop South of Fifth Avenue

Not only are the appointments and furniture of the utmost elegance and worthy of your inspection, but we will have on display an exclusive and beautiful line of MEN'S GOODS FOR SUMMER WEAR. It will be a pleasure to show them to you. You needn't necessarily buy, but you will enjoy giving them the "once over."

L. C. Adler

113 Peachtree Opposite Piedmont

Empire Tires

RED WEAR LONGEST

You've Noticed the Increasing Number of REDS

The other fellow, in large numbers, is learning of the extra value in Empire Tires.

They are cured by a different process. They don't give out or blow out—they must be worn out, and they do that mighty slowly. Empire RED Tires can't be made out of old rubber; they are always fresh and lively and our vulcanizing makes them tougher and stronger. The Empire Non-skid Tread of extra thickness piles up enormous mileage.

You will agree this sounds good on paper, but we will give you tangible assurance that it's right. If an Empire Tire fails to run as far as you expect, tote it right back and we will satisfy you. You decide whether you get your money's worth and you must be pleased.

Now for recruits to join the free swimming campaign.

President Wilson proceeds on the idea that fooling the people is both futile and unnecessary.

America's Economic Independence.

Noting the fact that last year Kansas sacked more wheat than did the British Isles, Belgium, the Netherlands, Denmark, Switzerland, Bulgaria and Japan combined, and then had more than sixteen million bushels to spare, the Maroon News remarks, "If any one doubts the capacity of the American people to live at home, we refer him to the record of that one State." Kansas alone produced more wheat than either Canada, Argentina or Australia. Yet its yield was only a fraction of the country's enormous output. In this unexampled bounty of food supply, is the chief assurance of America's independence and prosperity.

From our vast grain harvest of 1914, the war-ravaged lands of Europe have been fed and at the same time our own needs have been plentifully met. To exports of wheat, is due largely the United States' unparalleled balance of trade and the millions of foreign gold which have come to our shores. That one crop would have sufficed to make the country rich.

Indications are that the forthcoming crop will equal, if it does not exceed, that of 1914. The acreage is much larger than last year and conditions, though adverse in some localities, are generally better. The estimate of a billion-bushels is by no means fanciful. Prices will not remain as high as they have been if the war ends in the near future, but they can drop many points and still yield royal returns. If the war is prolonged, the demand and the profit will be all the greater.

It is peculiarly gratifying to know that the South's grain area is more extensive this year than ever before. One hundred and seventy thousand more acres of wheat and three hundred and twenty-eight thousand more acres of oats were sown in Georgia last autumn than in the same season of 1913, an increase of one hundred and eighteen per cent. for wheat and ninety-six per cent for oats. The cotton States combined planted seven million, two hundred and seventy-one thousand acres to wheat last autumn as compared with five million, four hundred and fifty-nine thousand the autumn preceding, and at the same time these States increased their acreage of oats more than one hundred per cent.

This has been followed by general diversification of crops, with especial emphasis upon food products. There could be no better omen of prosperity for the South. This region, so long dependent upon distant quarters for its food supplies, is learning to live at home. It is turning its broad resources to more practical account and thus is acquiring the distinctly American quality of economic independence.

No trench warfare in Mexico. Either it is victory or a rout.

What will become of the old-fashioned trade mark, "Made in Germany?"

The Toll of the Submarine.

Though there is no denying the fact that Germany's submarine war has impressed itself on the enemy's shipping, it is well to remember that the British merchant fleet now numbers more than forty thousand vessels. The percentage of losses during the last ten months is negligible beside the vast remainder. The Allies still command the seas together with the immeasurable advantage which that power implies.

The most telling blows from the submarines have been against warships rather than against merchantmen. The destruction of five dreadnaughts at the Dardanelles, most of which fell prey to the under-sea fighters, is a loss which the British admiralty cannot minimize. The fleet, it is true, still serves the extremely important purpose of keeping the German navy locked in Wilhelmshaven and of affording safe convoy to troop transports and generally efficient protection to the commerce of the Allies. But the sinking of a battleship, even in so large a navy as Great Britain's, is a very serious matter.

Thus far there is no apparent means of coping with the submarine. Its movements are so stealthy and swift that ever-ready defense becomes impossible. One torpedo accidentally aimed can blow up a sea giant that cost millions of dollars, and can disarrange an entire program of naval offense. True, the submarine itself is exposed to many dangers. Its periscope once visible, it may be shattered by a shot from its intended victim. But submarines can be built far more rapidly and more cheaply than battleships, and they can be manned by a far smaller crew.

England's control of the sea is in no peril of being lost, but what would its admiralty not give for an adequate defense against submarine attacks?

Not that we know anything about war, but a 500-yard advance doesn't seem to us to be any considerable span of the earth.

The Needs of Our Navy.

Rear Admiral Fiske stated a "vital" important truth in saying of the American navy, "When the time for action comes a buoyant optimism will stimulate courage and spur exertion, but until that time arrives optimism and self-satisfaction work in the interests of the enemy." The people of the United States have good reason to be proud of their navy as far as it goes, but they have better reason to face the blunt fact that their navy does not go far enough. It is efficient but it is not adequate. Its vessels are good and its men and officers admirable, but it needs more vessels and more officers and men. Wise patriotism will recognize these needs and meet them betimes.

With these critics of the navy who manifestly are inspired by political motives, the country has no patience. The attempt to show that the national defenses have been neglected under the Democratic administration has fallen flat simply because it was planted in prejudice and untruth. The record shows that more battleships and auxiliary craft have been built or provided for in the last two years than during any like time of the preceding decade. The questions of national defense can never be discussed intelligently on a basis of partisan politics. To the words of such a student and authority as Rear Admiral Fiske, however, we should listen intently. Speaking at Annapolis last week, he said:

"Let us estimate the situation briefly and consider first what kind of an attack we should have to guard against. Evidently an attack by one of the great naval Powers is the only kind we need consider. What would be the character of the attacking force? Clearly the attacking force would be as great as the attacking Power could spare in order to insure its success and minimize its losses. This means that the attacking force would include battle cruisers, dreadnaughts, pre-dreadnaughts, scouts, cruisers, destroyers, submarines, mine depot ships, mine layers, mine sweepers, airships and aeroplanes, all fully manned and all strategically directed by a general staff.

"What have we with which to oppose this force? A smaller number of dreadnaughts, pre-dreadnaughts and destroyers than the enemy would bring of battle cruisers, no effective scouts, one airship recently contracted for, only three good aeroplanes, not yet ready; an embryonic aeronautical service, two mine depot ships, one mine layer and twelve mine sweepers; also about forty-five submarines of all kinds and ages, distributed over the Atlantic and Pacific coasts, Panama, Hawaii and the Philippines, none of which have ever attempted feats like those so effectively performed in foreign navies now, and an inadequate merchant marine from which to get auxiliaries."

These are not the words of a jingo but of a cool and competent observer. They do not refer to any pending situation; they simply measure this country's naval strength beside that of other first-class Powers. Particularly to be noted is the Admiral's allusion to our deficiency in auxiliary craft such as battle cruisers, aeronautical service, mine layers and sweepers, and submarines. In regard to submarines, it should be recalled that Congress at its last session made an appropriation for the building of twenty-six such vessels, three of which are to be sea-going and of a size and power never before projected. Great battleships cannot render the broad, full service for which they are designed unless they are reinforced with proper auxiliaries; and in this respect the American navy is conspicuously in need of additions.

These shortcomings should be remedied promptly and liberally, not as a preparation for war, which is the last thing the United States contemplates or desires, but as a safeguard against war and as a prudent measure of national security. Vast armaments, it is true are no guarantee of peace; indeed, militarism carried to extreme lengths is a menace to peace, as the present European struggle tragically witnesses. But the United States is not dreaming of vast armaments or of ambitious militarism. It is concerned solely with adequate means to guard its own shores and to uphold its just claims. More than that, we have no wish to do; and less than that, we cannot in wisdom and honor fail to do.

The navy must ever be our first and surest line of defense; and as such it should be equipped and prepared to repel any attempted invasion. But the navy should not be depended upon as our only bulwark. The army also should be developed to a size commensurate with the country's needs. It is especially important that our coast defenses be strengthened and that an adequate reserve force be established. The public should think of these things more seriously and Congress should deal with them more seriously. The United States does not expect war; certainly it does not want war, and we may rely upon our Government to do nothing that will invite war. But should war ever be forced upon us from without and we were ill-prepared for defense, with what bitter irony would we recall the prudent counsels which we ignored?

A secret is something known to but one person. In baseball the team that starts out the best doesn't always continue so. Russia couldn't be expected to hold Pretzel, considering that pretzels and vodka don't go together. No need for an extra session of congress. The legislature will take care of things in the meantime. Proceeding in our optimistic vein, we contend that the rain will cease sometime and that Atlanta will land the pennant.

"In the Silence Room."

BY E. ADDINGTON BRUCE.
A neighbor of mine, a man of great scholarly attainment and much common sense, has a habit which provokes amused comment among many of his friends. When at home he secludes himself for an hour daily in a bright, sunny room, attractively but simply furnished. During that hour he secludes himself from nothing; he rests and meditates on cheerful subjects. And while he is in this room his servants have strict orders that he is not to be disturbed.

"I am sorry," is the invariable answer they give to anyone who happens to call on him, "but you will have to wait, or come again. Mr. Blank is in the Silence Room."

Now, this singular habit is no mere eccentricity. On the contrary, it is so helpful that it would be well if everybody were to adopt it.

Its effect is to counteract absolutely the tendency to hurry, with its consequent nervous strain, so prevalent in our modern life of strenuous competition. Moreover, through the restful and invigorating influence of this hour of unbroken quiet, my friend undoubtedly lays in a fresh stock of nervous energy.

This enables him to work far more effectively than would be the case if he pressed himself to work feverishly all day long, as is done by so many men and women.

To follow his example it is by no means necessary to depart a special room for an hour of silence. Any room will do, provided it is so simply furnished and decorated that there will be nothing in it to distract the mind from the great purpose in view.

Try this plan, you who are tired, nervous and overwrought. Make it a point every day, preferably just after breakfast or after the midday meal, to shut yourself out from all disturbing influences, to make, so to speak, a cheerful time, and to remain thus, in perfect repose, for one hour.

Let us estimate the situation briefly and consider first what kind of an attack we should have to guard against. Evidently an attack by one of the great naval Powers is the only kind we need consider. What would be the character of the attacking force? Clearly the attacking force would be as great as the attacking Power could spare in order to insure its success and minimize its losses.

These are not the words of a jingo but of a cool and competent observer. They do not refer to any pending situation; they simply measure this country's naval strength beside that of other first-class Powers.

Particularly to be noted is the Admiral's allusion to our deficiency in auxiliary craft such as battle cruisers, aeronautical service, mine layers and sweepers, and submarines. In regard to submarines, it should be recalled that Congress at its last session made an appropriation for the building of twenty-six such vessels, three of which are to be sea-going and of a size and power never before projected.

Great battleships cannot render the broad, full service for which they are designed unless they are reinforced with proper auxiliaries; and in this respect the American navy is conspicuously in need of additions.

These shortcomings should be remedied promptly and liberally, not as a preparation for war, which is the last thing the United States contemplates or desires, but as a safeguard against war and as a prudent measure of national security.

Vast armaments, it is true are no guarantee of peace; indeed, militarism carried to extreme lengths is a menace to peace, as the present European struggle tragically witnesses. But the United States is not dreaming of vast armaments or of ambitious militarism.

It is concerned solely with adequate means to guard its own shores and to uphold its just claims. More than that, we have no wish to do; and less than that, we cannot in wisdom and honor fail to do.

The navy must ever be our first and surest line of defense; and as such it should be equipped and prepared to repel any attempted invasion. But the navy should not be depended upon as our only bulwark. The army also should be developed to a size commensurate with the country's needs.

It is especially important that our coast defenses be strengthened and that an adequate reserve force be established. The public should think of these things more seriously and Congress should deal with them more seriously. The United States does not expect war; certainly it does not want war, and we may rely upon our Government to do nothing that will invite war.

But should war ever be forced upon us from without and we were ill-prepared for defense, with what bitter irony would we recall the prudent counsels which we ignored?

A secret is something known to but one person. In baseball the team that starts out the best doesn't always continue so. Russia couldn't be expected to hold Pretzel, considering that pretzels and vodka don't go together.

No need for an extra session of congress. The legislature will take care of things in the meantime. Proceeding in our optimistic vein, we contend that the rain will cease sometime and that Atlanta will land the pennant.

Particularly to be noted is the Admiral's allusion to our deficiency in auxiliary craft such as battle cruisers, aeronautical service, mine layers and sweepers, and submarines. In regard to submarines, it should be recalled that Congress at its last session made an appropriation for the building of twenty-six such vessels, three of which are to be sea-going and of a size and power never before projected.

Great battleships cannot render the broad, full service for which they are designed unless they are reinforced with proper auxiliaries; and in this respect the American navy is conspicuously in need of additions.

These shortcomings should be remedied promptly and liberally, not as a preparation for war, which is the last thing the United States contemplates or desires, but as a safeguard against war and as a prudent measure of national security.

Vast armaments, it is true are no guarantee of peace; indeed, militarism carried to extreme lengths is a menace to peace, as the present European struggle tragically witnesses. But the United States is not dreaming of vast armaments or of ambitious militarism.

It is concerned solely with adequate means to guard its own shores and to uphold its just claims. More than that, we have no wish to do; and less than that, we cannot in wisdom and honor fail to do.

The navy must ever be our first and surest line of defense; and as such it should be equipped and prepared to repel any attempted invasion. But the navy should not be depended upon as our only bulwark. The army also should be developed to a size commensurate with the country's needs.

It is especially important that our coast defenses be strengthened and that an adequate reserve force be established. The public should think of these things more seriously and Congress should deal with them more seriously. The United States does not expect war; certainly it does not want war, and we may rely upon our Government to do nothing that will invite war.

But should war ever be forced upon us from without and we were ill-prepared for defense, with what bitter irony would we recall the prudent counsels which we ignored?

No need for an extra session of congress. The legislature will take care of things in the meantime. Proceeding in our optimistic vein, we contend that the rain will cease sometime and that Atlanta will land the pennant.

SAFEGUARDING BATHERS.

BY FREDERICK J. HANSEN.

ON THE bathing beach at Coney Island this year may be seen a sunbather man, accompanied by two big shaggy dogs, keeping restless watch upon the throng of bathers. No swimmer in distress escapes the notice of these three life-savers, who have a number of difficult rescues to their credit. The most spectacular of these, perhaps, was the saving of three occupants of a rowboat, who turned out to be nearly a mile from shore. The man led the way, on the long swim, and he and the two dogs each held up an unconscious body until the boats from the pier could reach them.

This man is a life-saver under private auspices, and there is a reward offered to anyone who saves a person from drowning. He was a ragged giant on the New York waterfront, a typical wharf rat, as much at home in the water as on land. One day he was pulled out from the pier board for a yacht at a party. His strength and courage in the water were his only assets. So an arrangement was made with the authorities, which he became an unofficial patrol at Coney Island.

That was several years ago, and now comes the romance, which reads like one in a book. The boy who was rescued found his rescuer by the merest chance, last winter, in the New York bread line. The swimmer was a vagrant, his three life-savers, his strength and courage in the water were his only assets. So an arrangement was made with the authorities, which he became an unofficial patrol at Coney Island.

The United States leads the world in the measures taken to rescue persons from drowning. The federal life saving service under the jurisdiction of the United States treasury is the best organized in the world, but its efforts are confined to certain localities. Municipal and local life saving efforts, many of them under private auspices, are increasing each year, in every locality in which a possibility of drowning exists. City bathers, who are rescued from drowning, are becoming so well protected that when a case of drowning occurs, it is no longer taken for granted as being unavoidable, but a prompt investigation is made.

A large number of rescuers are self-appointed and many of these have long lists of rescues to their credit. One of the most famous is a river hero named Ring, who is credited with having saved more than a hundred lives. He is a small man, but his strength and courage in the water are his only assets. So an arrangement was made with the authorities, which he became an unofficial patrol at Coney Island.

Dogs play a prominent part in the life saving work of many seaside resorts. At Atlantic City for years a force of trained dogs has been maintained to supplement the work of the life guards. These faithful animals, trained to respond to a whistle, were used to find the bodies of persons who had become unconscious in the water. They were also used to find the bodies of persons who had become unconscious in the water. They were also used to find the bodies of persons who had become unconscious in the water.

Dogs are being regularly trained in a number of places to render life saving service. At Atlantic City a number of dogs now regularly attached to the Life Guard service, have been raised to the work, and are descended from the parents who valued their work. A Pennsylvania man has established a dog college, in which one branch of the training given consists in drills for efficient rescue work. These dogs are trained to respond to a whistle, and are used to find the bodies of persons who had become unconscious in the water. They were also used to find the bodies of persons who had become unconscious in the water.

The dogs are also taught to clutch the person by clothing at the back of the neck in order to avoid being choked to death by tightly gripping arms.

DIARY OF A SOLDIER IN THE TRENCHES

BY JEAN GIGOT, AS RECORDED BY WALTER S. WICK.

WHEN LUCK CAME MY WAY.
IN THE TRENCHES, MAY 1.—We were occupying trenches west of Rheims, in a corner of the great Champagne plain, of which it is the center. The Germans at this point were perhaps 200 yards from us. One afternoon we heard a rumbling noise along the line of the trenches, and we were told that the Germans were going on. It seemed to indicate a heavy movement of troops, but we could not tell. My adjutant ordered me to climb the top of a haystack and take a look over the plain. He might as well have told me to take a rifle and blow out my brains, so sure was it to be killed by the German sharpshooters. Still, the job had to be done, even at the cost of several lives. So I crept out in the white daylight and began crawling carefully through the dark grass and weeds over the top of the haystack, where soldiers had feasted months before while the fighting was yet in the open, and actually reached that haystack unseen, when up jumped a whole bunch of rabbits, scared by me out of their hiding place. Of course, they ran toward the German lines and attracted attention, which gave evidence that somebody was crawling over the top of the haystack.

Then the bullets began to whistle around the haystack. I was safe so long as I lay hidden. But I climbed to the top and peered out over the plain as I had been ordered, despite the fact that the company of sharpshooters were patrolling away at me. I slipped down again quickly while the Bosch fire was still directed at the top of the haystack and got some fifty feet away before I was discovered. The bullets rained about me. I was getting away with valuable information, and I must be stopped. A mitrailleuse swept my trail, cut down the vines about it. As I crawled my clothes and face were spotted with mud. The vines were smashed about me. As I got closer to my trench our troops began to return the fire of the Germans, to give them a "what-for," but they said that their fire died away and I came back at last in safety.

I reported that the noise which might have seemed a movement of troops was merely a few wagons coming and going with food and ammunition supplies. But, as the noise kept up, a lieutenant ran in the afternoon was sent out to make a more experienced observation. He reached the haystack, but he never came back.

QUIPS AND QUIDDITIES

An American tourist tells of entering a hotel in a French town not far from Paris. He asked for a room, and the hotelkeeper took him to the top floor, where he showed very comfortable apartments at the surprising low figure of 5 francs a day. Marveling, but well satisfied, the American took a room. Later in the day, while walking about the town, he met a Frenchman, who inquired, "What floor are you on?" "Ah," said the friend, "What floor are you on?" "Yes, you have one of the Zeppelin parlors. Try to get a room in the basement and see what they'll charge you."—Everybody's Magazine.

Tommy's mother was an invalid, so his Aunt Lavinia looked after him and the house. And she never missed a chance of pointing out a fault or expounding a precept. "Oh, dear," said Tommy one day, after Auntie had lectured him for ten minutes, "I wish I had wings!" "And I wish I had a scold," said Tommy's mother.

"Oh, I'd fly up in the air with Aunt Lavinia, and I'd tell her I couldn't get any high at all." "Yes, dear," said mother, proudly, as the little chap pouted impressively. "What would you do then?" "I'd drop Aunt Lavinia," said Tommy, savagely.—Stray Stories.

In his Savannah camp Bill Donovan, baseball manager, was waiting for a waiter to bring him a drink. The name of Sutton. Bill had to reproach Sutton more than once for a lack of agility in arriving with the food. Sutton promised to improve. One morning he brought in a consignment of article cakes that had gone cold.

"What do you mean," said Bill, "by bringing me cold cakes?" "Well, I'll tell you boss," said Sutton. "I brought them cakes in so fast that I guess they hit a draught."

New inventions to aid in life saving work are being brought forward each year. Some are impracticable and of little value. Most of the best are the result of ideas suggested by men who have had long experience and know just what dangers need to be most guarded against. The most complete life-saving apparatus for use in a watering place has been designed by George Freest, of Pacific coast life guard with a long line of rescues to his credit. His invention consists of a small, light, and maneuverable canoe of a speed of seventy miles an hour while carrying a side car, the body of which is six feet long. This canoe is light and easily maneuvered for the speedy rescue of a drowning person, including the pulmotor. This canoe was first used at Redondo Beach, Cal., but is now being rapidly introduced at other resorts.

This pulmotor, primarily designed for mild rescue work, has been introduced into all life saving stations. It supplies oxygen to the lungs after natural respiration has ceased, and in nine cases out of ten restores it. The drowned person is first turned face downward over the knee of the rescuer to expel the water from the lungs after which the pulmotor mask is slipped over his face and air pumped into his lungs.

A cigar-shaped metal buoy is one of the recent inventions which facilitates the rescue of persons drowning at some distance from the shore. This buoy is capable of sustaining the weight of two men in the water. It is attached to a leather belt worn by the life saver, and is pulled over his head before going to the water. A fine wire cable is wound about a hand reel kept on shore. The cable is light and strong, and is easily handled by a small reel. When the life saver reaches the drowning person, he clasps him firmly but makes no effort to raise him out of the water. Instead, on the shore, by turning the reel, will draw both buoys in the same manner employed by the fisherman in reeling in a large fish. The buoy supports them on the surface of the water while the men are being drawn in.

The United States life saving service is engaged chiefly in the rescue of persons from ships wrecked, and has made as many as 10,000 rescues during a single year. The American seacoast is divided into thirteen life saving districts with nearly 300 stations, manned by 1,500 men. The stations are of three classes: complete life saving stations with a resident keeper; life saving stations with a resident keeper; and life saving stations with a resident keeper. These stations are equipped with a variety of life saving apparatus, including life preservers, life jackets, and life buoys. They are also equipped with a variety of life saving apparatus, including life preservers, life jackets, and life buoys.

The English lifeboats were first used in all of our life saving stations. These boats are constructed with double bottoms, which provide for the storage of a quantity of air sufficient to sustain them above water. Some of them are so constructed that they will themselves if overturned. They are now being largely supplanted by power boats in most American stations. The first of these power boats was purchased by the United States life saving service in 1895. It proved so efficient that within five years thirty-three boats were put into service. They are thirty-five feet long and propelled by a 10-horse power motor. Each boat has room for forty men.

Now the government life saving service is provided with over a hundred of these power lifeboats equipped with the newly-devised six cylinder auto-marine engines. In addition to these are provided a number of surf boats, smaller and lighter, which are used in the rescue of men from motor boats. These boats have marked a great advance in life saving, because of the speed with which the rescuers are borne out to the scene of disaster.

The life-saving rocket now in use at the stations will carry a line 1,000 yards from shore. The light line thus extended is attached to a strong rope capable of sustaining the weight of several persons.

Each year the United States government makes an official examination of the new life saving devices which have been designed during the year. One which seems to present great possibilities in the equipment of ocean steamers is the Kapok stuffed mattress, which may be utilized as a life raft. Kapok is produced from a plant growing in Java and several other southern countries. It is a soft, downy material, and remains buoyant after being in the water for hours. In the tests made by the navy a few months ago, it was demonstrated that a ten-pound Kapok mattress was capable of supporting a man for a long time. A forty-pound mattress supported eight sailors in the water for over an hour. Plans are already under consideration to equip all ocean liners with Kapok mattresses. Their provision in ocean liners would eliminate the possibility of such tremendous mid-ocean tragedies as that of the Titanic.

attention, which gave evidence that somebody was crawling over the top of the haystack.

Then the bullets began to whistle around the haystack. I was safe so long as I lay hidden. But I climbed to the top and peered out over the plain as I had been ordered, despite the fact that the company of sharpshooters were patrolling away at me. I slipped down again quickly while the Bosch fire was still directed at the top of the haystack and got some fifty feet away before I was discovered. The bullets rained about me. I was getting away with valuable information, and I must be stopped. A mitrailleuse swept my trail, cut down the vines about it. As I crawled my clothes and face were spotted with mud. The vines were smashed about me. As I got closer to my trench our troops began to return the fire of the Germans, to give them a "what-for," but they said that their fire died away and I came back at last in safety.

I reported that the noise which might have seemed a movement of troops was merely a few wagons coming and going with food and ammunition supplies. But, as the noise kept up, a lieutenant ran in the afternoon was sent out to make a more experienced observation. He reached the haystack, but he never came back.

WOMAN SEEKS FREEDOM TO INHERIT A FORTUNE

Portuguese One Among Over
One Hundred Plaintiffs
Asking Divorce

Before a crowd of men and women and lawyers, the undecided divorce calendar of over 100 cases began with a touch of the unusual in Judge George L. Bell's superior court room Monday morning when a Portuguese divorce case opened the proceedings.

The case not only involved the legal separation of Mrs. Maria Rosario Pedro, 258 Highland avenue, from Louis Pedro, but upon it also depended whether or not Pedro or Mrs. Pedro would inherit valuable Portuguese farm lands near Priguesia, Portugal, now owned by Albertina Rosario, father of Mrs. Pedro. Albertina Rosario, said Mrs. Pedro, is about to die of old age, and she, as his daughter, is the lawful heir of his farm, worth many thousands of dollars. That is, she is his heir under Portuguese law if she is free. But, if she is married as she is to her father's death, her husband, under the Portuguese laws, gets her entire inheritance. Hence the divorce case was rushed through with all possible speed. Mrs. Pedro got her first verdict Monday morning at 9:30 o'clock, and it is thought, got it in time to save her fortune, the latest advances from Portugal being that her father is still alive. Ernest G. Bentley, her attorney, stated that the first verdict would be sufficient to keep Pedro from inheriting the land, even if Mrs. Pedro's father died before the second verdict of complete divorce is granted.

Mrs. Pedro, a slim, dark-eyed, black-haired woman of thirty, took the witness stand in her case and testified in Portuguese through the medium of Joella Guimaraes, an interpreter. She said that she and Pedro were married in Portugal August 28, 1895, and that they emigrated to Boston in 1897, and that, after enduring many cruelties at his hands, she left him in September, 1912, and came to Atlanta. He is now in New Bedford, Mass., she believes.

She said he once threatened to kill her and to kill her sister. After this first case, the divorce jury gave out verdicts at rapid speed, averaging one every five minutes. The jury men did not leave the box, but continued to sit at the end of the plaintiffs' testimony, after which Foreman Z. W. Correy would sign the verdict of final divorce. Nearly a third of the hundred cases were disposed of Monday, and entire number should be done with inside of three days.

The divorce jury, which will try all of the cases, consists of Z. W. Correy, foreman; O. K. Henley, E. D. West, T. Austin, R. J. McQuinn, E. C. Poole, W. L. Combs, John L. Moon, D. E. Herren, A. F. Patterson, R. G. Gunn and George W. Plickin.

Other cases disposed of were as follows:

FIRST VERDICTS.
Carrie B. Smith vs. Robert H. Smith; A. T. Tate vs. Louise Tate; Inez Smith vs. Henry J. Smith; Ada Trouton vs. William H. Trouton; Ruth C. Ship vs. G. E. Ship; L. J. C. Bratton vs. W. C. Bratton; Frances Salmon vs. Charles E. Salmon; Julia Avery vs. E. A. Avery; Lucile Jackson vs. H. Jackson; Salie H. Anderson vs. Thomas J. Anderson; John M. Colley vs. Willie F. Colley; Mrs. W. B. Whitten vs. W. B. Whitten.

SECOND VERDICTS.
Gertrude Johnson vs. Samuel Hobgood; Mary E. Hobgood vs. Samuel Hobgood; F. C. Rickers vs. Mrs. A. R. Rickers; Sallie Martin vs. Joseph M. Martin; Mrs. W. M. Bailey vs. W. H. Bailey; Dora F. Ritchie vs. W. H. Bailey; Dora F. Ritchie, Jr. vs. Mrs. Charles Crabtree; Rebecca J. Griffin vs. Harry Griffin; Mrs. M. M. Chastain vs. M. M. Chastain; Ella C. O'Hagan vs. Charles J. O'Hagan; John C. O'Hagan vs. Mrs. Anne Nolle Burn; Florence P. Atwood vs. Herbert E. Atwood.

Revival Services.
Revival services are being held at Nellie Dodd Memorial Methodist church under the direction of the pastor, the Rev. J. S. Hill. Rev. J. P. Weiford is assisting him. Services are held each night through the week at 7:30 o'clock.

Revival services now under way in the East Point Methodist church are growing in interest, according to the pastor, the Rev. C. V. Weathers. Services are being held daily at 9 a. m. and 8 p. m. with a song service and prayer service at 7:30 p. m.

FATHER HORTON AND THE GRADUATING class of the Marist college, which receives its diplomas on Tuesday next. From left to right, top row: Sergeant Dwight McClain, Sergeant J. McElhenry, Joseph H. Williams, Lieutenant J. H. Turner, Captain P. S. Lewis. Bottom row, left to right: Sergeant W. Dodge, Lieutenant E. H. Reynolds, Father Horton, Emory L. Cocke and Lieutenant J. A. Moss.

SHOWS HOW TO RAISE FUNDS FOR THE SCHOOLS

Prof. Stewart, Supervisor of
High School Work, Tells
How It Can Be Done

In the opinion of Joseph S. Stewart, professor of secondary education at the University of Georgia and assistant supervisor of high school work in the state, there is but one way to provide adequate educational advantages for the children of Georgia, and that way is to amend the state constitution so that two mills of the taxes collected by the state will be set aside for the public schools and the passage of laws requiring each county to levy an annual tax of two mills for public education.

Professor Stewart says that in addition the counties, school districts, or local systems, should be allowed to levy additional taxes for the schools not to exceed four mills.

The opinion of Professor Stewart is set down in the following recommendations which appear in his annual report. "I propose, therefore, a new amendment to the constitution embodying the following principles: First, That the state revenue to the amount of two mills be set aside annually and inviolably for the public schools of the state, to be divided among the counties according to the school population. Second, That each county be required to levy annually a mill tax for public education within the county, to be distributed equitably among the schools of the county. Third, That any county, school district or local system may levy for the use of the schools under its jurisdiction not exceeding four mills additional.

"If this amendment were adopted the state funds would be as large as at present and increase annually with the increase of property, and this fund would be practically doubled in 113 counties. It would put our educational funds by one vote of the people on a permanent and adequate basis, and enable any county or community to have as good schools, both elementary and secondary, as the people wish. I see little chance for putting adequate educational advantages in reach of all the people within the next twenty-five years without such an amendment. This would make possible real compulsory education, prompt payment of teachers, arouse interest due to local administration and support, and emphasize that educational responsibility of which we have spoken above, as being true of the towns."

Writers' Club Meeting.
There will be no meeting Monday afternoon of the Atlanta Writers' Club. The club calling the meeting for this date were in error, and should have called the meeting for next Monday, May 14. The place of the meeting is the University club.

EMORY TRUSTEES OPEN THEIR ANNUAL SESSIONS

Stirring Sermons Mark Beginning
of Commencement
Exercises at Oxford

OXFORD, Ga., June 7.—The trustees of Emory opened their annual sessions here this morning at 10 o'clock, and after hearing the report of Dr. James P. Dickey, president, adjourned until 2 o'clock this afternoon. At the afternoon session it is expected that important matters relating to the university will be taken up.

The morning's commencement exercises consisted of the junior orations in the Young J. Allen memorial chapel. The commencement sermon Sunday was preached this year by Bishop E. E. Hoss, of the Diocese of Georgia, for his discourse was these words: "Philip saith unto Him, Lord show us the Father, and it sufficeth us: Jesus saith unto him, Have I been so long time with you, and yet hast thou not known me, Philip? He that hath seen me hath seen the Father; and how sayest thou, then, Show us the Father?" (John 14:8-9).

From this passage the bishop discussed God's response to the human yearning to know Him. He set forth that this universal thirst of mankind for the knowledge of God is the highest aspiration of the human soul and that it is a deathless instinct. From this fact the bishop argued that God would not have created man with such an insatiable desire, and then fail to satisfy the desire by revelation of Himself.

BIG ATTENDANCE.
Notwithstanding clouds that threatened rain, the Allen Memorial chapel was filled to its utmost capacity and with a considerable number of people in the galleries. They came from far and near, and in the congregation were many conspicuous men from every part of Georgia and the south.

The graduating class was seated in academic gowns immediately in front of the preacher, and gave undivided attention to the bishop's masterly discourse. In the class are two men from the Orient, whither Bishop Hoss soon goes: James Inouye, of Japan, and Yontak Kim, of Korea.

At the evening session the sermon was preached by Bishop Candor, the chancellor of the university, from a passage taken from the second Epistle to Timothy: "Hold fast the form of sound words, which thou hast heard of me, in faith and love which is in Christ Jesus. The teaching of the sermon was to the effect that sound thinking concerning religious truth is vitally related to pure morals and a right social order.

TYLER'S GRANDDAUGHTER DEAD IN SAVANNAH

(By Associated Press.)
SAVANNAH, Ga., June 7.—After a long illness, Mrs. Mary Stuart Young, wife of General L. Gourdin Young, and a granddaughter of John Tyler, a president of the United States, died this afternoon at the age of 68. Mrs. Young was born in Williamsburg, Va., in 1847. She will be buried in Charleston, S. C., tomorrow afternoon.

Mrs. May will receive all contributions to the clearing house at 101 Grand theater building, this city.

Dr. F. E. May, of Atlanta, secretary of the Georgia war relief committee for France and her allies, calls attention to the urgent need for relief in France, Russian Poland, and Serbia.

Dr. May has received a cablegram from the American Relief Clearing House in Paris, stating that the large number of orphans (meaning men whose nerves have been shattered by the horrors of war), are without beds or bedding and have but scant shelter.

To relieve this condition, contribution of cots, beds, bedding and hospital tents, or funds with which to purchase such supplies, are urgently solicited. The clearing house makes an appeal for funds with which to ally in some degree the great suffering in Russian Poland. As the need for relief in that district is so urgent, and as it is impossible at this time to reach the seat of distress with supplies from America, cash contributions are desired.

Dr. May is in receipt of a cablegram from the clearing house stating that Dr. Strong, the American in charge of relief work in Serbia, calls for cotton underwear and cotton socks as the greatest need in that district at the present time.

Dr. May will receive all contributions to the clearing house at 101 Grand theater building, this city.

MRS. KENNEDY'S ESTATE IS VALUED AT \$10,000

Thornwell Orphanage Is Left
Atlanta Woman's Home,
Worth \$7,500

The Thornwell Orphanage, of Clinton, S. C., is the chief beneficiary named in the will of the late Mrs. Jane Kennedy, of Atlanta, who died May 26.

Mrs. Kennedy's will, which was filed for probate with Ordinary Thomas Jeffries Monday, disposes of an estate valued at about \$10,000. Her home place at 166 Park avenue, valued at \$7,500, was left to the orphanage to be disposed of in such way as the trustees of that institution see fit. This property consists of a two-story house on a lot 100 by 220 feet.

Mrs. Kennedy left \$150 and her bedroom furniture to her friend, Mrs. A. B. Garrett, and the residue of the estate, after her debts are all paid, goes to her cousin, Mrs. Malvern Hill, of White, S. C.

T. A. E. Means is named executor and is not required to make a bond.

FOR NUMBER EXAMINATION.
Take Mothers' Aid Progression.
Retest test strengths due to physical or mental exhaustion, nervousness and weak digestion.—(Advt.)

Stolen Auto Found.
Chief Heavers received word Monday that the Ford car of Dr. H. F. Harris, which was stolen last week on Forsyth street, has been recovered at Augusta, Ga. by Harry S. Jones, of Augusta.

Hay Wade, T. J. Armit and W. C. Stephens, in the car when it was found, will return to Atlanta without requisition.

MERCER COACH WILL BE NAMED THIS AFTERNOON

Jack Zellers Probably Well Be
Elected as Successor to
Coach Robins

(Special Dispatch to The Journal.)
MACON, Ga., June 7.—Today's activities at Mercer university commencement will be featured by the annual meeting of the board of trustees this afternoon at 2 o'clock, at which Pope Brown, vice chairman, will preside. One of the most important matters coming before the trustees is the election of an athletic coach to succeed Coach Robins, who accepted a position at the University of Mississippi. Coach Jack Zellers, a former graduate, is prominently spoken of for the position.

Dr. J. J. Taylor, of Savannah, delivered the commencement sermon Sunday morning at the First Baptist church before a large audience which overflowed the building. The subject of his forceful sermon was "The Inner Kingdom."

The contest for the Hardeman medal was held this morning at 10:30 o'clock on the university chapel. H. N. Massey, R. S. Wood, A. L. Mulling and T. M. Dalphin were the contestants. Senior class exercises will be held at 8 p. m., and the champion debate at 8:15 o'clock. A. L. Mulling and H. N. Massey, clerics, will champion the affirmative side of "Resolved, That a System of Insurance Should be Made Compulsory for Corporations." Frank Hunt and H. N. Massey will speak on negative.

Alumni day exercises will feature tomorrow's activities when J. E. Copeland, of Valdosta, will deliver an address. Rev. Harry S. Jones, of Augusta, will deliver the literary address tomorrow. All winners in contests will be announced Wednesday at commencement exercises.

Chamberlin-Johnson-DuBose Co. ATLANTA NEW YORK PARIS Chamberlin-Johnson-DuBose Co.

Embroideries of the Rarest and Finest Sort in a Sale

The Selling Begins at 9 o'Clock

Here, then, is a Sale of Embroideries that could not be possible in every store—because every store does not import such exquisite embroideries; and even if they did, it is doubtful if every store would have the temerity to go at prices as we do now.

A Chamberlin-Johnson-DuBose Co. Sale!

Be they ever so beautiful, even the most beautiful embroideries, in our way of doing things, they are, after all, but merchandise.

And merchandise must move on.

So—

\$12.50 to \$16 Flouncings Are \$5 a Yard

Forty-five inches wide, white organdies and voiles, worked with cream flat Venice laces—a number of patterns—they must be listed among the most exquisite embroideries that are brought to America.

\$10 to \$11 Embroidery Points Are \$5 a Yard

These are those wonderful designs that women may use most effectively with the plain organdies and voiles and the like for their most elaborate summer frocks.

\$4 to \$9 Embroideries Are \$2.50

22 to 45-inch flouncings and allovers—organdie, voile, aero cloth; all white and white with little sprays in colors.

\$2.50 to \$4.50 Embroideries Are \$1.50 a Yd.

22 to 45-inch flouncings and allovers, many in match patterns—of organdie, crepe and aero cloth—dainty patterns, very elaborate patterns.

\$1 to \$2.50 Embroideries Are 75c a Yard

22 to 27-inch flouncings, white and white with colors. These were \$1.00 to \$2.00 a yard. With these go some 40-inch allovers, white crepes embroidered with colors. These were \$2.50 a yard.

A special lot of Cluny edges, 4 to 6 inches wide, that women will like for centerpieces.

It's the Values!

In the June Sale of Undermuslins

They're buying Undermuslins this morning!

Buying them because they're finding things right—a little righter, if you will allow us, than could be expected.

We prepared for this event in a thorough way—we looked long and far and scrupulously when we were selecting, and we got things as we and you would have them.

Coming right now it offers every opportunity to select the wardrobe for the whole summer at such savings as must appeal to any woman who is at all thrifty.

Gowns 49c to \$10.00.
Teddy Bears 49c to \$3.50.

Combinations 98c to \$3.50.
Petticoats 50c to \$7.95.

Drawers 19c to 49c.
Corset Covers 19c to \$2.98.

Little Stories for Bedtime

Three Little Possums and Granny Fox

BY THORNTON W. BURGESS.

(Copyright, 1915, by E. J. Young.)

OLD GRANNY FOX was very pleasant to listen to. The three little Possums up in the tree, Bumpy, Grumpy and Frumpy, just had to listen because she told them such wonderful things about the great World that they had started out to see. They knew that Uncle Billy Possum would have said had he been there. He would have told them to stop their ears. They knew this for they had been told many times that old Granny Fox would gobble them up the first chance she got. But it is the way with little folks sometimes to think that they know more than their elders, especially when they want to do the thing that they have been told not to do.

The three little Possums had been told never to trust Reddy or old Granny Fox, but now that they had seen Granny for themselves and found her so pleasant and so willing to show them the things they wanted to see they began to think that Uncle Billy and Mrs. Possum really didn't know Granny Fox at all. Granny saw what was going on in their foolish little minds, and she turned her head to hide a smile.

"I know you don't trust me, my dears," said she. "Probably you have been told terrible stories about me. But you mustn't believe all you hear or you never will get anywhere in the Great World. Use your common sense, my dears. Use your common sense. Be independent and act for yourselves. How do you expect to find the wonderful things in the Great World unless some one who knows where they are shows you the way? Never have I seen such fine, smart Possums at your age, and nothing will please me more than to show you all those things you want to see."

Bumpy looked at Grumpy and Grumpy looked at Frumpy and Frumpy looked at the others. "Shall we?" whispered Bumpy.

"I don't believe she would hurt a flea," said Frumpy.

"I wish she wouldn't smile; her teeth are too long and sharp," grumbled Grumpy.

"It's a splendid chance to see the Great World," added Frumpy.

"We'll never find those wonderful things alone," whispered Bumpy.

"I wish there wasn't such a hungry look in her eyes," grumbled Grumpy.

"I think she is very nice," whispered Bumpy.

"Mother Possum couldn't have really known her at all," said Frumpy.

"I wish she didn't lick her lips so much," grumbled Grumpy.

Meanwhile old Granny Fox waited patiently at the foot of the tree. "I tell you what it is, my dears," said she at last, "I will go off down the lone little path far enough for you to feel perfectly safe in coming down. You are quite right in being careful and cautious, and it does you great credit. Never trust strangers until you have proven that they are to be trusted. When you have come down I will lead the way to those wonderful things and you can follow me at a safe distance." To herself she added, "I will lead them where there are no trees to climb," and she turned her head to smack her lips at the thought.

Then old Granny Fox deliberately turned her back and trotted down the lone little path until they could just see her red cloak.

Once more the three little Possums looked at each other, and this time even Grumpy hadn't a word to say.

The Evening Story

Smiles in Adversity

(Copyright, 1915, by W. Werner.)

WHEN Jean Kincaid walked out of MacNamara's that afternoon with her last pay envelope in her hand she held her firm white chin as high as ever, but the earth seemed to be rocking under her feet. To be discharged when she was so sure of her position—had even hoped for speedy promotion! She could not believe it yet. And the manager's curt explanation that the times had necessitated the cutting down of the entire store force brought no consolation.

Her footsteps seemed to tap out the word "discharged" as she walked swiftly along toward her boarding place. Her mind began to cool down from its first tumbled upheave and crystalline into sane reflection. She owed nothing, she had \$12 in her hand, something in the savings bank. She was not so badly off as some. And before her money was gone she was certain to find work.

By accident her glance fell upon the window she was passing. It still showed the white blouse which she had looked at that morning and meant to buy tonight, for the girls did not always buy at MacNamara's, although they worked there. This cheap little shop offered many captivating bargains like the white blouse. But now it was as much an impossibility for her as one of MacNamara's French creations. She caught her breath and, hurrying on, ran against a girl who was also hurrying with her head down and her thoughts and eyes manifestly intent upon anything but what she was doing.

"Why, Kitty?" Jean exclaimed, recognizing the girl, who had been in the same department with her and was also of the number of those dismissed. "I didn't mean to bump up against you like that. Where are you looking for?"

"Oh, Jean," the girl wailed, catching hold of Jean's arm. "I've lost it—here on this street corner, and I can't find it and it was all the money I had in the world."

"You lost what?" Jean eyed her sternly.

"My pay envelope! I had it in my bag! I thought it was safe, but the surprisingly house-wifely ingenuity and clasp must have given way and when I looked it was open and my envelope was gone!"

Jean glanced at the filmy little bag and saw the broken clasp. She drew the frantic girl out of the way of the 6 o'clock rush. "There isn't much use in looking further," she said.

BETTY BROWN TELLS ABOUT Elfish Peter Pan Who Sets Styles For the "Bathing Girl"

Peter Pan has dropped down from the tree tops to sport himself—or rather herself—on the billowy waves.

And of all the "bathing girls" who adorn the beaches there are more daintily fascinating than the Peter Pan girl in Peter Pan's own colors, green and yellow, and Peter's perky cap and saucy feather.

A simple affair in spite of its originality is the Peter Pan suit which combines a charming costume for the beach promenade and a practical swimming outfit.

But Kitty, despite her lack of foresight and her love of tinsel, had surprisingly house-wifely ingenuity and could contrive little meals over the gas jet without arousing Mrs. Callaghan's suspicions. Besides, she was a most loving, tractable little thing, with no closed rooms in her life. She and Jean got along together as amiably as two sisters.

For days they looked vainly for the press of midwinter and hard times was upon the city, and there were many idle. At one place Jean got her name entered against a possible vacancy. Heartbreak though she was, she kept on smiling for Kitty's sake. Her money was getting low, and she had nobody to turn to upon if she had not been young and strong and brave she would have found the situation terrifying.

So much walking wore out their shoes until they reached such a thin-soled, run-over stage that Jean realized they must have new ones. She drew half of what remained in the savings bank and bought Kitty a sturdy pair. For herself she decided to go without a little longer, as the rent was due again. One day she was caught in a storm, and the next morning she awoke from a feverish sleep to find herself really ill. Kitty went to the dispensary for medicine. She would have liked to stay with Jean, but Jean sent her out resolutely.

"There's a quarter for lunch and care," she said. "Can you make it do, Jean? Don't worry about me. I'm too healthy to get very ill. No, don't kiss me."

But Kitty would kiss her. And then she went off half crying, leaving Jean alone.

For the first time Jean broke down and sobbed into her pillow. Then she prayed. She was becoming desperate and afraid. "Suppose she doesn't get well! Suppose I grow worse! These thoughts haunted her like goblins. The medicine seemed no better than water. She felt herself sinking—sinking. Suppose she should die? "Oh, not that! Not that!" she cried. And her youth rallied again to defend her.

The day passed slowly. As the afternoon was waning she felt a strange heaviness creep over her—a stupor, she thought it. She fought against it for a while and then wearily she closed her eyes.

Kitty shook her into wakefulness. "How sound you sleep Jean. It's the medicine. Are you better?"

So Jean sat up and rubbed her eyes. "Yes, yes, I believe I am," she said.

On Washington street, it said, so I knew that it was mine. I went to the place. The nicest young grocery man found it. And I turned round and bought a lot of stuff of him, grapes and fresh eggs and lettuce. I thought, 'We'll celebrate. Oh, Jean, don't cry.' Laugh, dear, laugh!"

But she was crying, too, and they mingled their joyful tears together.

ALMOST THE FIRST THING SHE SAW WAS THE ADVERTISEMENT.

Secret of Looking Young

BY M. ADDINGTON BRUCE.

EVERY woman wants to keep young-looking as long as possible. There is nothing wrong in this. But there is a good deal that is wrong in the means many women employ to hide the signs of advancing years.

As often as not the artificial aids to which they resort deceive others into thinking that they are older, not younger, than their true age. Precisely because they make use of such artifices, the natural tendency is to infer that they stand in greater need of them than is actually the case.

Besides which, the attempt to preserve a youthful appearance by artificial means is apt to give the face a hardness of expression that is the reverse of youthful.

No, it is not in cosmetics that the secret of looking young is to be found. It is to be found only in the cultivation of habits and ideas that keep one feeling young. In this, as in everything else, the mind exercises a tremendous influence over the body.

Two merchants, partners in a dry-goods store, stood watching a departing customer. Said one to the other, indicating the customer: "It is a delight to have that young person come into the store. She is like a ray of sunshine."

"Young person!" repeated the other. "What do you mean? Do you know her age?"

"About twenty-five, I suppose."

"You have missed your guess by just ten years."

"No matter," said the other. "She is like a ray of sunshine just the same."

"Exactly," agreed his partner. "That is why she keeps looking young."

To maintain, no matter what the handicap, unflinching cheerfulness of disposition; to be keenly interested in the affairs of everyday life; to avoid dwelling on unpleasant thoughts of any kind—this, added to the avoidance of extremes such as late hours and over-eating, is in truth the best prescription for the retention of youthful appearance.

Physiologists know that every gloomy, harsh, unkind, malicious thought makes an imprint, not merely on the brain but on the features. Banish all discordant thoughts, and you will not have to worry about the coming of the wrinkles.

And, above all, cultivate enthusiasm. Cling to faith in yourself and faith in your fellow-beings, however hard the knocks that experience gives you. Be courageous, be kind, be ardent. These are the natural traits of youth, and you who would stay youthful-looking must resolutely maintain them.

Today's Household Affairs

BY MARY LEE

Intelligent Catering

UNINTELLIGENT catering, objectionable always, is less objectionable in winter than in summer. In winter the appetite is likely to be sharper, and the limited variety of fruits and vegetables tends to accent thoughtlessness in the selection of food.

The suit of Irish green silk jersey handed with stitched bands of canary taffeta.

But the cloak of black and white taffeta that gives the Peter Pan suit its distinctive note. Its originality with appeal to the most daring belle, and Little Miss Prim will be delighted with its modesty.

wonderingly. Then everything came crowding back upon her. "Did you find a job?" she asked.

"Yes, I did!" Kitty tore open one of a group of paper parcels on the table and offered it to Jean. "Grapes, Jean. While you're eating some I'll sit right down here on the bed and tell you. I was just desperate with you sick and everything, this morning. I tried two or three places where we'd been, and then I went to Gaylord's. Jean gasped. "Yes, I did—the biggest store in the city. I tell you I was desperate. I never expected they'd take me, but they did! And I had your name put on the waiting list. I was so crazy that I ran right out and bought a paper of a poor little half-starved newswoman, and Jean, almost the first thing I saw was the advertisement of my job envelope in the 'Lost and Found' column. Found."

The use of fat and starch should be limited. The summer diet should not exclude these important food factors, but it is easy to use too much of the heat-producing materials.

Pork, beans, potatoes, rice, creamed cabbage, heavy puddings, etc., are not well adapted to hot weather diet. The requisite amount of starch, sugar and fat can be introduced in a more tempting and digestible form. For example, if the day is very warm and your dinner contains meat that is rich in protein and vegetables and a cold soup that is a salad oil—a salad with a mayonnaise dressing is tempting even in hot weather—and the starch in some vegetables such as peas or green beans. This will give you a balanced ration that will not appear heavy and will be palatable even in the hottest weather.

Butter, salad oils and creams always can be used on the table without offense even in midsummer, and are a valuable addition to the light foods that are most likely to tempt the appetite.

Mousses, iced coffee with whipped cream, stewed fruits with cream, and cream soups offer pleasant means of introducing cream in the hot weather menu. Oil can be introduced in either French mayonnaise or tartare dressings, and good butter, like good wine, needs no bush.

Fish—fresh—is an excellent dish for summer. It is rich in protein and is easy of digestion for the average person. The southern Italians, the Greeks, and the Turks eat a great deal of fish cooked in oil; and if they find it wholesome as a warm weather diet there is no reason why we should not find it so.

Our School's Vacation

By PAUL WEST.

(Illustrated by Moser.)

MONDAY. Vacation started this morning, and so far they haven't been many complainers heard, except from Topsy Stebbins. Topsy figuring out we only get 12 weeks & 3 days vacation this year instead of 12 weeks & 4 days like last year, & he says we had oughter do something about getting cheated like that.

Ex-Grigham said if Topsy that he was going to spoil our summer by starting us worryin' over anything as foolish as that that he had another guess. But it does seem kind of a cheat, say we.

JUST DOING NOTHING. Andy Anderson got up a good squeam for starting vacation, when the fellows got together & sed what would we do the first morning Andy sed he had the finest thing of all would be not to do nothing at all, but just lay back on the grass sunbathers & pretend we was looking for the school bell was just going to ring, or we was late or anything unpleasant like that.

So we all lade down on the grass under the trees over by Griggsy's & then Andy wot say, "Well, the school bell is going to ring in a minute & we will all be late!" Then Ex-Grigham sed, "Yes, & I ain't done any of my home work, did you?" & the fellows all sed, "No! Gee, but we will get the tar kicked

outen us, hay!" Then Steve Hardy sed, "Cheese-it, hear comes Short Leg Milliken to grab us for hooking Jack," and then every person mald believe he was terrible sick, & it was very enjoyabull, say we.

NOATS & GOSSIP. Bol Haynes says he is going to put in two solid hours every day forgetting all the things Miss Palmer lered us this year. Well, Bol, we don't think it will talk you many days, say we!

Fatty Bellows got a job from those new papers of Andy Anderson's to pick them strawberries this afternoon. Mister Anderson calm by while Fatty was in the strawberry bed & ast the new nabors if they knewed the reputation of Fatty & they sed no. When he told them Fatty got the bounce quick, but he had already eat 3 rows & picked 1, so he didn't care so much.

Interesting Weddings

Thomas and Mr. F. D. Goutos, of Macon, was solemnized Sunday evening at 5 o'clock at the home of the bride's sister, Mrs. W. A. Hargett, in West End street, near C. C. Hanes, sister of the bride, was matron of honor, and Mr. A. G. Sotiriopoulos was best man.

After a short wedding trip Mr. and Mrs. Goutos will be at home in Macon.

Crackers Begin Four-Game Series With Chicks in Memphis Today

Locals Invade Memphis and Tackle Chicks

Lord's Team Traveling at Top Speed Just Now—Routed League—Leading Pels in Series Ending Sunday—Perry vs. Roth Is Probable Hurling Program

Having concluded their little brush with the Little Rock Travelers, the Crackers begin today to do business with the Memphis Chicks on the latter's home grounds. This is the first of the season to the Bluff City and will complete the Crackers' tour of the league. From there they move on to New Orleans, where they wind up their road trip in time to get back here for the double bill beginning Tuesday of next week.

The Crackers are bumping into a tough opposition in the Chicks. The Chicks just now. Bria Lord has his trip, traveling at top speed and at their present rate they are about the hardest team in the league to down. For the past two weeks they have been winning, like nine out of twelve games, and in compiling this record they trounced the Pelicans, the Memphis Chicks are hitting well, fielding in good form and getting better than an average brand of pitcher. The Crackers are pulling together, Bria Lord having shown a faculty of making his long work in a bunch, whenever they are in physical shape to deliver their best stuff.

However, if the Crackers get going right, they have little to fear in tackling the Chicks. A combination of their good hitting with good pitching will make them hard for anybody to beat in this league. The Chicks are going strong, there is no denying. The question is therefore strictly up to the locals. There is not likely to be as much variation in the play of the Chicks as there is with the Crackers. The home team has been the most consistent performers of late. When they are good, they are as good as the Crackers. When they are bad they are easy pickings for any crew in the league.

Manager Bill Smith will doubtless select Rott Perry to open against the Chicks. Dave Roth will probably face Perry on the slab. The Chicks' pitching for this club Roth beat the locals in the game he faced them in here for the Chicks, but they trimmed him when he worked for the Barons against them. He has therefore gotten an even break against the Crackers to date.

No further news has yet reached from the deal sent Sid Smith to the Crackers. However, it has been announced that Sid will remain with the Crackers for the season. He will be held until such time as a man to take his place on the roster is located, whether the new help be an outfielder or a catcher.

Gotham Thinks Matty Is Done

Great Hurler Has Failed to Regain Winning Form Since Season Opened—No Longer Puzzles Batters

PHILADELPHIA, June 7.—New York scribbles have just about become convinced that the wonderful Mathewson has reached the end of his line. He has not hit a few good games left in that amazing pitching arm. Since the middle of the season the National league players have contended that Mathewson was through as a star. New York refused to believe it. But the work of the king of pitchers to date leaves room for doubting that his day is past.

Mathewson is on his sixteenth season as a major league pitcher and when he considers the strain that has been placed on him many seasons when the pennant was at stake, and he was badly overworked, it is remarkable that he lasted so long. Cy Young pitched longer and was a star for a greater length of time, but it must be remembered that Young was never burdened with the strain of carrying along an entire pitching staff through grueling pennant fights and through world's series as has Mathewson. Young pitched on but one championship team, the Boston club, and took part in but one world's series.

In his first appearance here this season the fans were almost unanimous in the opinion that it was not merely an off day with Mathewson, but that he was through. Since that time New Yorkers have looked in vain for the flash of form that made him famous, but instead of growing better he has been getting worse.

Like Rucker, the New Yorker will have his good days, when he can beat almost any club, but his reign as the premier pitcher is over. The National league owes to him most of its success in fighting off the American league in the last baseball war. The marvelous work of this pitcher in 1903 kept the Yankees out of the National league much higher than it would have been had he not signed, instead of jumping back to the Giants.

Sally Leagues Alter Schedule

SAVANNAH, Ga., June 7.—President S. P. Corish announced last night that the South Atlantic league schedule had been changed, the second half of the season to start June 15, instead of June 19, as originally provided in the schedule. The season will come to a close July 20, instead of August 28, the date originally set.

Corish said that the schedule had been curtailed for purely business reasons and that the league committee financially was thoroughly sound. The clubs will reduce to eleven men each, necessitating the playing of a pitcher in the outfield. The players will be tendered new contracts and given the option of signing them or being declared free agents.

In regard to the situation at Columbia, Mr. Corish said that the franchise surrendered to the league. He said that he had been awarded other citizens in Columbia and that the club troubles had been adjusted. The Columbia team is a serious loss to Savannah today.

"Hell hath no fury like a woman scorned"—Well, how about the fan, benighted Jay. Who, with the bases full, observes some bloke Step up and poke into a double play?

THE MATTY STATUS.
"I'm very much interested," postcard L. G. "In the case of Christy Mathewson, the greatest of them all. Is he about through, or is he merely in a brief slump?"
Matty, of course, is no longer the old Matty—or, rather, the young Matty—of other days. But it is hard to believe that he has slipped as badly as the record would indicate, if the record is to be used as the main testimony in the case.

Matty's slump began back in July of the year before. From that point on he failed to win half his games—in fact, hardly more than a third of them—into October. That slump was partially excused by the collapse of his mates. This spring has been the most unkind of many years. It has been a tough season on veteran pitchers, who need all the sunlight and warmth they can get to oil out the ancient flippers. So it may be that with a return of summer weather the Giant veteran may return with a fair portion of his old state of mind, the only method of obtaining a correct answer is to wait until the warm weather test arrives.

TIP TO GOLF BALL MAKERS.
Sir—I see where they are manufacturing golf balls that one can drive 300 yards with only a fair wallop. This leaves me intensely cold. Why doesn't some concern manufacture a golf ball that you can put 10 feet into the cup? Here is a chance for an inventor to be the greatest benefactor the human race has ever known. PLATO PETE

RUBAIYAT OF A DUFFER.
Sometimes I think that never looks so small
The waiting cup as when I putt the ball.
For though I putt and putt and putt and putt,
The ballly putt will rarely ever fall.

If Jimmy Coffey smashes his hands hitting Jim Flynn, what would happen when Mr. Coffey swung his clenched talons upon the Gibraltar dome of Colonel Jess Willard—the dome that even Jack Johnson couldn't dent?

ANOTHER YANK JOLT.
Sir—I see where a number of writers are picking the Yanks to finish fourth—ahead of Washington and St. Louis. I don't know about Washington, but they will never beat St. Louis. Branch Rickey has had the toughest luck in either league, has had more men injured and more men sick, but his club is now coming around, when it does he will have a machine on a par with the first three—Chicago, Detroit and Boston. FROM MISSOURI.

THE RED SOX UPLIFT.
The Red Sox appear to have emerged from their trance at last, and with several crimples back in shape Carrigan believes that by the last of June his club will either be first or within a game or two of the top. The Red Sox will be at home now for some time, and during this period of play they are confident they can yank back both Tigers and White Sox and prove beyond doubt the winter drop which picked them to win was properly arrayed. The stuff is certainly there to win a pennant if said stuff is properly pruned and maneuvered.

PRONOUNCED RAISER.
There was a young player named Maisel,
Whose eyes were a beautiful hazel;
Although not a Ty Cobb,
At the base running he was the only raised.

It was always a cinch he would raise.
F. L. F.

If John Franklin Baker is out to bluff Connie Mack into launching a sale or trade he is liable to find Connie one of the grandest little callers that ever sat in the game. Connie has the peculiar habit of announcing his say and then standing pat though the heavens fall and the seas run dry.

Jack Connolly is additional proof that they can come back who have the heart to get started in the proper direction and go on to the finish. He was almost stunned over his own grave on the return journey, but the record shows today that only one or two in the game have pitched any better ball.

Yale would make a desperate drive to even up in baseball and crew competition for what Harvard handed her last fall in the presence of some 65,000 folks at New Haven. And this evening-up attempt should be fraught with all the necessary hipity, as both the Blue and the Crimson have exceptionally good material in both sports. It is difficult to recall a year where the two old rivals on the diamond and water were more evenly matched—and matched with material of exceptional class.

There have been many number of college stars developed this spring, but Colonel Yost says that Siler is the best college player he ever saw. Mike Donlin is willing to second this motion, which would indicate that Mr. Siler must carry an abnormal share of merit. All he is good at is pitching, batting, outfielding and base running.

Pelicans Lose To Chickasaws

Home Run With Bases Full Fails to Cop for New Orleans. Barons Win From Vols

MEMPHIS, June 7.—Weaver's wildness in the fourth inning and his team-mates' errors gave Memphis a safe lead over New Orleans in a free hitting game yesterday which the local team won, 12 to 6. Six of the eleven men who faced Weaver in the fourth scored. Coyle's home run in the third brought in four runs for New Orleans and Peadar scored a man ahead of him with a home run in the fourth.

Score by innings:
New Orleans.....004 200 020—8 13 6
Memphis.....002 000 100—11 6 6
Batteries—Gudger, Weaver and Higginson; Robertson, Renfer, Morrill and Schiel.

Barons 5, Vols 3
NASHVILLE, Tenn., June 7.—Birmingham won the last game of the series, 5 to 3. Bushelman was taken out in the sixth inning after allowing four runs and Kroh finished the game.

Score by innings:
Birmingham.....000 004 010—5 10 6
Nashville.....000 001 020—3 7 1
Batteries—Blick and Hale; Bushelman, Kroh and Street.

Douglasville Defeats Visiting Temple Nine
DOUGLASVILLE, Ga., June 7.—Temple downed in defeat here at the hands of Douglasville, 9 to 2. The game was close until the eighth when a brilliant start by Trigg saved the game. Craton and Hays were field stars, while Bragg and Stringfellow, the local battery, were up to their usual style.

Memphis Chicks
The Memphis Chicks are hitting well, fielding in good form and getting better than an average brand of pitcher. The Crackers are pulling together, Bria Lord having shown a faculty of making his long work in a bunch, whenever they are in physical shape to deliver their best stuff.

Mathewson's Status
Mathewson is on his sixteenth season as a major league pitcher and when he considers the strain that has been placed on him many seasons when the pennant was at stake, and he was badly overworked, it is remarkable that he lasted so long. Cy Young pitched longer and was a star for a greater length of time, but it must be remembered that Young was never burdened with the strain of carrying along an entire pitching staff through grueling pennant fights and through world's series as has Mathewson. Young pitched on but one championship team, the Boston club, and took part in but one world's series.

Sally Leagues
SAVANNAH, Ga., June 7.—President S. P. Corish announced last night that the South Atlantic league schedule had been changed, the second half of the season to start June 15, instead of June 19, as originally provided in the schedule. The season will come to a close July 20, instead of August 28, the date originally set.

THE NEWS

Trans-Mississippi Association Attracts Good Field for Qualifying Round at Memphis

MEMPHIS, June 7.—Approximately 200 golfers are carded to tee off here today in the fifteenth annual renewal of the Trans-Mississippi golf association's championship tournament. A large number of out-of-town players have arrived in the city by Sunday night and a number of other prominent players were expected in on early morning trains.

Among those already here are Jack Cady, of the Arsenal Golf club, of Rock Island, Ill.; present holder of the title, and Bryan Heard, of the Houston, Tex., and several other prominent players. The tournament this year promises to show a strong representation for northern cities. Kansas City, with the exception of Memphis, has the largest contingent. While Minneapolis is well represented, Oklahoma City, too, has sent along a strong entry, and that city entertains high hope of grabbing off honors in the tournament.

The players will qualify over a thirty-hole course. Champion Cady is paired with J. P. Edgington, the Memphis crack, for the qualifying round. Reuben Bush, the New Orleans crack, who recently defeated Southern Champion Nelson Whitlaw for the championship of the Audubon club in the Crescent City, is paired with J. A. Evans, Jr. Harry Legg, who is regarded as a strong contender and the best bet of the Minneapolis entry to win first honors, is paired with M. Condon.

Many of the players who are here to take part in this tournament expect to return to their homes for the summer. The tournament will be held in Atlanta next week, and several expect to go from here direct to Atlanta.

Women Tennis Stars Compete
PHILADELPHIA, June 7.—The twenty-ninth annual women's lawn tennis tournament for the championship of the United States opens today at the courts of the Philadelphia Cricket club with seventy-four entries. Mrs. George Wightman, who as Miss Hazel Hotchkiss held the title in 1905, 1910 and 1911; Mrs. Marshall McLellan, the Pennsylvania champion, and Mrs. Benjamin Briggs, nee Dorothy Green, are among the many prominent players entered. Other well-known players, including nearly all those who participated in the recent Pennsylvania and eastern states tournament, comprise the list of those anxious to annex the singles championship.

Play in the doubles will begin tomorrow, while on Wednesday the opening matches in the mixed doubles will be played. Miss Mary Browne, the present title holder, is not expected to defend the championship.

You uncork that sunshine tank
by letting some Prince Albert joy smoke sift into your system via a jimmy pipe or makin's cigarette, for you never got such fun out of tobacco in all your life.

Get that P. A. flavor? Get that P. A. aroma? Go to it mighty cheerful, because P. A. can't bite! Puff away like you hit perpetual motion in the first round! And keep fired-up till the cows come home. For it's surefacts Prince Albert never grouchd any other man's tongue and won't grouch yours!

Get P. A. jimmypipejoy's and cigarette makin's happy, then you'll personally understand that no other pipe and cigarette tobacco ever was or ever can be like Prince Albert, because it's made by a patented process that cuts out the bite and the parch. That's why pipe peaceful and cigarette peaceful men call

PRINCE ALBERT
the national joy smoke

You be a sport and take a chance on this say-so, because you've no idea of the bully goodness, of the joy's satisfaction, of the contentment and restfulness and that sort of thing, that hits every man who gets chummy with P. A.

Hammer this home for what ails your smokeappetite, because you've no time to lose getting introduced to this real and true man-tobacco that's ace-high and a yard wide, no matter how you swing on it, jimmy pipe or makin's cigarette!

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

Boys' Club League Plays Two Games
Piedmont Park was the scene of the opening of the second season of the Boys' Club league Saturday, when two games were played. The first game resulted in the defeat of the Barons by the Lookouts to the score of 10 to 2. The second game saw the Crackers whipped by the Turkeys to the count of 11 to 3. Leading the clutching in the two games were Goodrich, Sherman, R. Davis, Thompson and Moore.

Batteries, first game, Gold and McKellen; Matties and Manes; second game, Greinmann and Cornwell; Freeman and Phillips.

Cleveland Signs Catcher McAllester
CHATTANOOGA, Tenn., June 7.—Will McAllester, former catcher of the St. Louis Browns, left today for Cleveland to join the Indians. McAllester was free agent. He was sent by the Browns to Rochester last season. St. Louis drafted him from Montgomery Southern league club. McAllester was formerly a star for the Buffalo Braves and the University of Tennessee. He coached a local high school football eleven last fall.

Atlanta Markets

Market in New York Closed 5 to 10 Points Higher Than Previous Close

(By Associated Press.)

NEW YORK, June 7.—Cotton advanced from an advance of 10 to 11 points today in response to a report from the west that the market and apprehensions that further rain in parts of the western belt would curtail the cotton crop. The market was quiet at the close, but general business continued active. The market was active and prices advanced. The market was active and prices advanced. The market was active and prices advanced.
